Date: 2026-10-08

Note: Generated with Haiku 5.5, then independently verified question by question by separate Sonnet agents using fresh searches (two-source rule; claims that could not be confirmed were removed or reworded; ambiguous or leaking questions were dropped). Several primary sources were unreachable, so residual risk is listed below. Not reviewed by a human.

Facts resting on a single or secondary source (residual risk):

- Passage 1: the dairy/GM-crop exclusion and the EU 'more than 90 per cent' tariff-cut wording rest on looser wording (two sources each).
- Passage 2 is shorter than the CLAT norm (about 394 words) because unconfirmed figures were removed.
- Passage 3: the Purple Cap history behind most questions rests on several list pages read only as search snippets; Sooryavanshi's Bihar origin rests on Wikipedia, Gulf News and the franchise site.
- Passage 4: offshore-basin locations and the seismic-programme figures were removed; the Khelo India and 2010 Commonwealth Games facts rest on two secondary outlets.
- Passage 5: the Article 66/93/316 checks and the Articles 263/280/324/338 match rest on search-result text of constitutional pages that could not be opened in full.
- Static-GK explanations cite Wikipedia or exam-prep pages in places where a primary text was not reachable.
