

CLAT Express - February 2026: Practice Quizzes

MCQ: +1 for a correct answer, -0.25 for a wrong answer. TITA (type-in-the-answer): +1, no negative marking.

Multiple-choice passages

Supreme Court Verdict Practice

The Supreme Court of the United States has struck down a set of tariffs that President Donald Trump imposed under the International Emergency Economic Powers Act, commonly called IEEPA. The Court's decision was a 6-3 verdict. Chief Justice John Roberts clarified that IEEPA does not allow a President to take unilateral tariff actions without approval from Congress. In his reasoning, the word 'regulate' in IEEPA does not mean 'tax'. The Court observed that IEEPA was designed for emergency economic restrictions, not for general tariff policy. As a result, the Liberation Day tariffs, introduced through an executive order dated 2 April 2025, were invalidated. Before this order, no American President had used IEEPA as a means to impose trade tariffs. The judgment has also raised questions about whether tariffs already collected can be refunded. It has further raised questions about the direction of future American trade policy. Indian exporters are among those affected, since the Liberation Day tariffs had applied to many of their goods. Any broad tariff measure now needs authorisation from Congress, which places a limit on the use of emergency powers for trade protectionism.

Q1.

Which of the following Justices dissented from the majority in the Supreme Court's ruling against the IEEPA tariffs?

- (A) Brett Kavanaugh
- (B) Amy Coney Barrett
- (C) Neil Gorsuch
- (D) Sonia Sotomayor

Q2.

Consider the following statements about IEEPA:

- I. It was enacted in 1977 to replace the Trading with the Enemy Act of 1917.
- II. It was primarily designed as a general tariff law.
- III. The President must formally declare a National Emergency before invoking it.

Which of the above statements is/are correct?

- (A) I and III only
- (B) I and II only
- (C) II and III only
- (D) I, II and III

Q3.

How many of the following statements about the Liberation Day tariffs are correct?

- I. They were introduced through an executive order dated 2 April 2025.
- II. They were upheld by the Supreme Court in its IEEPA ruling.
- III. They were declared under Section 232 of the Trade Expansion Act 1962.

- (A) Only two
- (B) Only three
- (C) None of the above
- (D) Only one

Q4.

Under which section did the President impose a 10% temporary tariff on goods from all countries?

- (A) Section 122 of the Trade Act 1974
- (B) Section 338 of the Tariff Act 1930
- (C) Section 232 of the Trade Expansion Act 1962
- (D) Section 301 of the Trade Act 1974

Q5.

Which goods imported from India will continue to face a 25% tariff under Section 232 despite the Supreme Court ruling?

- (A) Select automotive components
- (B) Agricultural exports such as cotton and nuts
- (C) Pharmaceutical exports
- (D) Textiles and apparel

Q6.

Approximately what share of India's exports to the US benefits from the rollback of the Liberation Day tariffs?

- (A) 18%
- (B) 25%
- (C) 50%
- (D) 55%

New START Expiry Check

A major nuclear arms control agreement has now reached its end. The New Strategic Arms Reduction Treaty, known as New START, expired in early February 2026, leaving no legally binding limits on the strategic nuclear arsenals of the United States and Russia. This ends the last legally binding nuclear arms control pact between the United States and Russia. Earlier arms control efforts had rested on a sequence of agreements, from the ABM Treaty to the later START pacts. Its expiry comes amid worsening geopolitical tensions, and the treaty had originally been signed in 2010 and extended by the Biden administration. The treaty was approaching its final expiry as relations between the two countries deteriorated, particularly because of the Ukraine conflict and growing strategic mistrust. Negotiations have stalled. Russia has suspended the sharing of information about its nuclear forces, citing concerns about possible aggression, while the United States accuses Russia of non-compliance and unreliability. Such a breakdown weakens the transparency and verification that once made nuclear arsenals predictable. Without verified data, both sides may assume worst-case scenarios, and heightened mistrust raises the chance of miscalculation. Historical experience suggests that unchecked arms competition can spiral into conflict. The end of the treaty therefore threatens global strategic stability by amplifying uncertainty and increasing the risk of unintended confrontation.

Q1.

In which city is the headquarters of the International Atomic Energy Agency located?

- (A) Vienna, Austria
- (B) Geneva, Switzerland
- (C) Paris, France
- (D) Brussels, Belgium

Q2.

Which group was awarded the 2024 Nobel Peace Prize for efforts toward a nuclear-free world?

- (A) Nihon Hidankyo
- (B) The Red Cross
- (C) Homi J. Bhabha
- (D) Rafael Grossi

Q3.

How many of the following statements about India's nuclear history are correct?

- I. India conducted Pokhran-I, its first nuclear test, on 18 May 1974.
- II. India joined the Missile Technology Control Regime in 2016.
- III. India's first nuclear test took place in 1998 during Pokhran-II.

- (A) Only one
- (B) Only two
- (C) Only three
- (D) None of the above

Q4.

On which date did the New START Treaty officially expire?

- (A) 5 February 2026
- (B) 5 February 2021
- (C) 11 May 1998
- (D) 5 February 2011

Q5.

Consider the following statements about arms control:

- I. The Anti-Ballistic Missile Treaty restricted the deployment of missile defence systems.
- II. The United States ratified SALT II in 1979.
- III. The Wassenaar Arrangement has 42 members.

Which of the above statements is/are correct?

- (A) I and II only
- (B) I and III only
- (C) II and III only
- (D) I, II and III

Q6.

What is the ceiling on operationally deployed strategic nuclear warheads for each country under New START?

- (A) 1550
- (B) 6000
- (C) 3500
- (D) 2200

Q7.

Match List I with List II:

List I	List II
I. Australia Group	A. Bans deployment of weapons of mass destruction in outer space
II. Wassenaar Arrangement	B. Informal export control forum formed after chemical weapons use in Iran-Iraq War
III. Missile Technology Control Regime	C. Voluntary export control regime for conventional arms and dual-use goods
IV. Outer Space Treaty	D. Informal understanding to prevent spread of missiles and UAVs capable of delivering WMD

Rows are two lists side by side, not matched pairs; work out the correct pairing.

- (A) I-D, II-B, III-A, IV-C
- (B) I-A, II-D, III-B, IV-C
- (C) I-B, II-C, III-D, IV-A
- (D) I-D, II-C, III-B, IV-A

Tarique Rahman's Rise: Practice MCQs

Bangladesh entered a new political phase in February 2026. The Bangladesh Nationalist Party (BNP), led by Tarique Rahman, won the 13th General Election and ended the Awami League's long dominance in the country. The result came after roughly eighteen months of upheaval and marked a major political shift. The BNP has a long history in Bangladesh's politics, and its win gave it an absolute majority in the legislature.

Tarique Rahman succeeded the government of Sheikh Hasina, which had been overthrown. He had come back to Bangladesh before taking up the highest office, and he is now the country's Prime Minister. He took the oath of office at Parliament South Plaza in Dhaka, and Om Birla attended the swearing-in ceremony.

His rise marks the emergence of a new top leader for the BNP. The party's leadership now faces the task of governing a country that has been through a period of political instability. The change follows a student-led revolution and Hasina's flight to India, which left the country in a period of political uncertainty. The election result and the swearing-in have drawn attention both inside Bangladesh and across the region. The booklet presents this as a major turning point in the country's current affairs.

Q1.

After how many years did Tarique Rahman return to Bangladesh?

- (A) 17 years
- (B) 15 years
- (C) 12 years
- (D) 20 years

Q2.

Who founded the Bangladesh Nationalist Party?

- (A) General Ziaur Rahman
- (B) Khaleda Zia
- (C) Sheikh Mujibur Rahman
- (D) Tarique Rahman

Q3.

Read the following statements.

Assertion (A): Bangladesh's national legislature is unicameral.

Reason (R): 300 members are elected directly through the first-past-the-post system.

Select the correct option.

- (A) Both A and R are true and R is the correct explanation of A
- (B) Both A and R are true but R is not the correct explanation of A
- (C) A is true but R is false
- (D) A is false but R is true

Q4.

Match List I with List II:

List I	List II
I. Seats in the new Upper House (Senate)	A. 65.3%
II. Seats in the Lower House	B. 10 years
III. Lifetime term cap for a Prime Minister	C. 100
IV. Yes votes in the referendum	D. 400

Rows are two lists side by side, not matched pairs; work out the correct pairing.

- (A) I-C, II-A, III-B, IV-D
- (B) I-B, II-C, III-A, IV-D
- (C) I-A, II-B, III-C, IV-D
- (D) I-C, II-D, III-B, IV-A

Q5.

Consider the following statements:

- I. Sheikh Mujibur Rahman was assassinated on 15 August 1975.
- II. Ziaur Rahman was assassinated in 1975.
- III. Sheikh Hasina was sworn in as Prime Minister for the first time in 1996.

Which of the above statements is/are correct?

- (A) I and II only
- (B) I and III only
- (C) II and III only
- (D) I, II and III

Q6.

Consider the following statements about the Teesta River:

- I. It originates from the glacial lake Khangchung Chho in Sikkim.
- II. Its total length is 414 km.
- III. It empties directly into the Brahmaputra.

How many of the above statements are correct?

- (A) Only one
- (B) Only two
- (C) Only three
- (D) None

Q7.

India accused the 2001-2006 BNP-led government of sheltering which North-East insurgent group, among others?

- (A) United Liberation Front of Assam
- (B) LTTE
- (C) Mukti Bahini
- (D) Hizbul Mujahideen

Q8.

In which year was Khaleda Zia sworn in as Bangladesh's first female Prime Minister?

- (A) 1981
- (B) 1986
- (C) 1996
- (D) 1991

New Government Check

Manipur has moved back to an elected government after nearly one year of direct central control. The state's administration was run by the Centre because the state government could not control a crisis in which violence broke out between Kuki-Zomi tribal groups and the Meitei community. Reports described it as the first clash of this kind in three decades in the state. The President revoked the arrangement, clearing the way for an elected government to take office. The new chief minister belongs to the Bharatiya Janata Party. Two deputy chief ministers were also sworn in, one from the Kuki-Zo community and one from the Naga community. Their presence reflects the state's mix of communities, which has long shaped its politics. The oath-taking marked the start of a new government after a long period without one. The roots of the conflict go back much further. The Meitei community lives mainly in the valley, which covers a small share of the state's land, while the hill areas cover most of it. Land purchase rules differ between the two regions. Disputes over census figures, the delimitation process and demands for tribal status have added to the tension between communities. The Meitei community has also raised concerns about inaccurate census figures from 2020. Critics have raised allegations of human rights abuses in affected regions, where the armed forces have extensive powers. Demands for autonomy from Nagas and Kukis have also been part of the state's politics for years.

Q1.

Which state has experienced President's Rule the most number of times?

- (A) Jammu & Kashmir
- (B) Punjab
- (C) Uttar Pradesh
- (D) Manipur

Q2.

Which constituency is represented by Deputy Chief Minister Losii Dikho?

- (A) Mao
- (B) Imphal
- (C) Senapati
- (D) Kangpokpi

Q3.

How many of the following statements about President's Rule are correct?

- I. A resolution approving the proclamation needs a simple majority in either House.
 - II. The President needs Parliament's approval to revoke a proclamation.
 - III. President's Rule can be extended up to a maximum period of 3 years with Parliament's approval.
 - IV. Jammu and Kashmir had the shortest single period under President's Rule.
- (A) Only one
 - (B) Only two
 - (C) Only three
 - (D) None

Q4.

Consider the following statements about President's Rule in India:

- I. Under Article 356, President's Rule can be imposed when the constitutional machinery of a state fails.
- II. A proclamation must be approved by both Houses of Parliament within 2 months of its issue.
- III. The President needs Parliament's approval to revoke a proclamation of President's Rule.

Which of the above statements is/are correct?

- (A) I and II only
- (B) II and III only
- (C) I and III only
- (D) I, II and III

Q5.

Who was sworn in as the 13th Chief Minister of Manipur?

- (A) Yumnam Khemchand Singh
- (B) N. Biren Singh
- (C) Okram Ibobi Singh
- (D) Mairembam Koireng Singh

Q6.

Assertion (A): Manipur became a Union Territory before it attained full statehood.

Reason (R): The Meitei community currently holds Scheduled Tribe status in Manipur.

- (A) Both A and R are true and R is the correct explanation of A
- (B) Both A and R are true but R is not the correct explanation of A
- (C) A is true but R is false
- (D) A is false but R is true

Q7.

Under which Article can the President issue a proclamation if a state fails to comply with directions from the Centre?

- (A) Article 365
- (B) Article 352
- (C) Article 356
- (D) Article 355

Q8.

Match List I with List II:

List I	List II
I. 1891	A. Maharaja Budhachandra signed the Treaty of Accession
II. 1947	B. Manipur became a Union Territory
III. 1956	C. Demand for ST status for the Meitei community persisted
IV. 2012	D. Manipur became a Princely State under British rule

Rows are two lists side by side, not matched pairs; work out the correct pairing.

- (A) I-A, II-B, III-C, IV-D
- (B) I-D, II-B, III-A, IV-C
- (C) I-A, II-C, III-B, IV-D
- (D) I-D, II-A, III-B, IV-C

Manufacturing and Infrastructure Check

Union Budget 2026-27 places manufacturing and infrastructure at the centre of the government's growth plan. The budget describes a push to scale up production in several strategic sectors and to revive older industrial sectors so that they become more productive and competitive. Among the sectors named are biopharmaceuticals, electronics, semiconductors and critical minerals. A biopharma scheme called SHAKTI is meant to strengthen domestic production of advanced medicines, while the semiconductor programme is expected to move from assembly toward higher-value manufacturing and home-grown intellectual property. A separate scheme is planned to build a domestic container manufacturing base. The plan also addresses heavy industries whose emissions are hard to cut, and it funds technologies that capture carbon for those sectors. On infrastructure, the budget proposes new freight and rail links, along with city-to-city connectors meant to speed up movement between major urban centres. Finally, the budget plans to map cities according to their economic strengths so that each region can pursue its own growth drivers. The budget presents these measures as part of a broader blueprint for economic growth that puts young people at its centre.

Q1.

What does the acronym SHAKTI stand for in the Biopharma SHAKTI scheme?

- (A) Strategy for Healthcare Advancement through Knowledge, Technology and Innovation
- (B) Strategy for Health Assistance through Key Technical Investment
- (C) Scheme for Healthcare and Knowledge Transfer in Agro Industries
- (D) Strategic Hub for Automated Knowledge and Trade Infrastructure

Q2.

Foreign companies providing cloud services to global customers from Indian data centres receive a tax holiday until which year?

- (A) 2030
- (B) 2035
- (C) 2050
- (D) 2047

Q3.

Under the City Economic Regions initiative, what is the allocation per region over 5 years?

- (A) 5,000 crore
- (B) 1,000 crore
- (C) 10,000 crore
- (D) 20,000 crore

Q4.

Assertion (A): The container scheme in the budget is meant to increase dependence on Chinese imports.

Reason (R): A dedicated container manufacturing ecosystem is meant to reduce dependence on Chinese imports.

- (A) Both A and R are true and R is the correct explanation of A
- (B) Both A and R are true but R is not the correct explanation of A
- (C) A is true but R is false
- (D) A is false but R is true

Q5.

Match List I with List II:

List I	List II
I. Infrastructure Risk Guarantee Fund	A. Multi-lingual AI-based agriculture platform
II. Carbon Capture, Utilisation and Storage (CCUS)	B. Partial credit guarantees to lenders
III. Bharat-VISTAAR	C. Scaling MSMEs into Champion enterprises
IV. SME Growth Fund	D. Decarbonising steel and cement

Rows are two lists side by side, not matched pairs; work out the correct pairing.

- (A) I-C, II-B, III-D, IV-A
- (B) I-B, II-D, III-C, IV-A
- (C) I-B, II-D, III-A, IV-C
- (D) I-D, II-C, III-A, IV-B

Q6.

Consider the following statements:

- I. The Rare Earth Corridor will be developed across four states, including Kerala.
- II. A proposed Dedicated Freight Corridor connects Dankuni with Surat.
- III. Five High-Speed Rail Corridors will be developed as Growth Connectors.

Which of the above statements is/are correct?

- (A) I only
- (B) I and II only
- (C) II and III only
- (D) I, II and III

Q7.

Consider the following statements about the SME Growth Fund:

- I. It is a dedicated fund of 10,000 crore.
- II. It aims to scale high-potential MSMEs into Champion enterprises.
- III. It is meant only for large corporations, not MSMEs.

How many of the above statements are correct?

- (A) Only one
- (B) Only two
- (C) Only three
- (D) None

Q8.

What is the target value of India's Bio-Economy by 2030?

- (A) USD 50 Billion
- (B) USD 150 Billion
- (C) USD 500 Billion
- (D) USD 300 Billion

Devolution and fiscal recall

The 16th Finance Commission's recommendations for 2026-31 shape how tax revenue is shared between the Centre and the States. The first stage of sharing is vertical devolution, which fixes the overall share of the Centre's divisible tax pool that States receive. The Commission has kept this share at 41 per cent, the same level set by the previous Commission. The divisible pool covers the Centre's gross tax revenues but leaves out cesses, surcharges and the cost of collection. States have raised concerns that these levies are kept by the Union and not shared, which reduces the untied fiscal space available to them. The second stage is horizontal devolution, which decides how the 41 per cent share is apportioned among individual States. The revised criteria add contribution to GDP as a new parameter, while income distance and geographical area are given less weight. Demographic performance also receives less weight, which has raised fears of an 'Ageing Before Prosperity' problem in some Southern States. The package also seeks fiscal discipline, with the Commission proposing deficit limits for both the Centre and the States by 2030-31. Together, these measures aim to balance fiscal federalism, equity and economic performance.

Q1.

What weight does the revised horizontal devolution formula give to Population (2011)?

- (A) 17.5%
- (B) 15%
- (C) 12.5%
- (D) 10%

Q2.

What fiscal deficit target has the Commission recommended for the Centre by 2030-31?

- (A) 3% of GDP
- (B) 4% of GDP
- (C) 4.5% of GDP
- (D) 3.5% of GDP

Q3.

Match List I with List II:

List I	List II
I. Statutory grants	A. Article 282
II. Discretionary grants	B. Article 281
III. Constitution of the Finance Commission	C. Article 275
IV. Report laid before Parliament	D. Article 280

Rows are two lists side by side, not matched pairs; work out the correct pairing.

- (A) I-D, II-A, III-C, IV-B
- (B) I-A, II-B, III-D, IV-C
- (C) I-B, II-A, III-C, IV-D
- (D) I-C, II-A, III-D, IV-B

Q4.

Consider the following statements about the 16th Finance Commission's recommendations:

- I. The Centre's fiscal deficit is to be reduced to 3.5% of GDP by 2030-31.
- II. States are recommended to end off-budget borrowings to enhance fiscal transparency.
- III. The cost-sharing ratio for disaster management in other States is 90:10.

Which of the above statements is/are correct?

- (A) I and II only
- (B) II and III only
- (C) I and III only
- (D) I, II and III

Q5.

Consider the following statements:

- I. Dr. Arvind Panagariya chairs the 16th Finance Commission.
- II. Cesses and surcharges form part of the divisible pool.
- III. The 16th Finance Commission was set up under Article 281.

How many of the above statements are correct?

- (A) All three
- (B) None
- (C) Only one
- (D) Only two

Q6.

Which levy is described as a 'tax on tax' imposed by the Central Government for specific purposes such as education and health?

- (A) Surcharge
- (B) Statutory grant
- (C) SASCI loan
- (D) Cess

CPI revision: reasons and method

A price index is useful only when it reflects what people actually buy. An economy changes over time, and so do the habits of households. Consumer spending has become more varied, cities have grown, and many purchases now happen digitally. A consumer price index that keeps an old set of items and weights can therefore give a distorted picture of living costs. The statistical agency that compiles the index must periodically revisit the base year, the basket of goods and services, and the weights given to each item. The new base year is chosen with care, using evidence from a recent household expenditure survey and from an advisory committee of experts. Pay revisions, pension adjustments and policy decisions can all depend on the index. If the index does not match real price changes, these payments and decisions may be wrong.

Q1.

Which ministry revised the CPI base year to 2024?

- (A) Ministry of Statistics & Programme Implementation
- (B) Ministry of Finance
- (C) Ministry of Commerce and Industry
- (D) Ministry of Consumer Affairs

Q2.

Which CPI base year was replaced by the 2024 base year?

- (A) 2011
- (B) 2010
- (C) 2015
- (D) 2012

Q3.

Who was appointed Chairman of the 26-member Advisory Committee on National Accounts Statistics?

- (A) Biswanath Goldar
- (B) Shaktikanta Das
- (C) Raghuram Rajan
- (D) Urjit Patel

Q4.

Assertion (A): The 2024 CPI base year was identified using data from the 2011 Census of India.

Reason (R): The 2023-24 Household Consumer Expenditure Survey was used to identify the new CPI base year.

- (A) Both A and R are true and R is the correct explanation of A
- (B) Both A and R are true but R is not the correct explanation of A
- (C) A is true but R is false
- (D) A is false but R is true

Q5.

Match List I with List II:

List I	List II
I. Revised CPI base year	A. Biswanath Goldar
II. Replaced CPI base year	B. Laspeyres Index
III. Chairman of the advisory committee	C. 2012
IV. Formula used for the revised CPI	D. 2024

Rows are two lists side by side, not matched pairs; work out the correct pairing.

- (A) I-C, II-A, III-D, IV-B
- (B) I-D, II-C, III-A, IV-B
- (C) I-C, II-A, III-B, IV-D
- (D) I-A, II-D, III-C, IV-B

Q6.

Consider the following statements:

- I. The CPI 2024 basket contains 358 items, of which 50 are services.
- II. Online markets were covered under the CPI 2012 basket.
- III. The CPI 2024 groups its items in line with COICOP 2018.

Which of the above statements is/are correct?

- (A) I and II only
- (B) I, II and III
- (C) I and III only
- (D) II and III only

Q7.

Consider the following statements:

- I. Overall inflation in January 2026 was 2.75% on a year-on-year basis (provisional).
- II. Rural inflation in January 2026 was higher than urban inflation.
- III. FY 2022-23 is the revised base year for the new GDP series.
- IV. Tape recorders were added to the CPI 2024 basket.

How many of the above statements are correct?

- (A) Only one
- (B) Only two
- (C) Only three
- (D) None

Q8.

Which of the following items was newly added in the CPI 2024 basket?

- (A) OTT Subscriptions
- (B) Cassettes
- (C) Radios
- (D) Second Hand Clothing

Declaration and Commitments

India hosted the India AI Impact Summit 2026 at Bharat Mandapam in New Delhi, and the event marked an important step for the Global South in artificial intelligence governance. The summit's central outcome is the New Delhi Declaration on AI, which focuses on AI that is inclusive, ethical and oriented to development. Rather than limiting the discussion to risks alone, the declaration asks how AI can deliver practical benefits to ordinary people. Its framework is organised into seven pillars, and each pillar is backed by voluntary global initiatives. Some pillars concern sharing solutions, some concern shared tools and standards, and others concern workforce preparation and energy-efficient systems. Alongside it, a separate voluntary framework for frontier AI developers was launched, with a focus on equitable access and real-world understanding of how AI is used.

Q1.

Which New Delhi Declaration pillar is a platform for sharing successful AI solutions and enabling replication of best practices globally?

- (A) Trusted AI Commons
- (B) AI for Social Empowerment Platform
- (C) Charter for Democratic Diffusion of AI
- (D) Global AI Impact Commons

Q2.

Which of the three Sutras stands for Sustainable Societal Impact?

- (A) People
- (B) Planet
- (C) Profit
- (D) Progress

Q3.

How many countries endorsed the New Delhi Declaration on AI, excluding international organisations?

- (A) 87
- (B) 78
- (C) 27
- (D) 102

Q4.

Assertion (A): Accountable Governance is one of the principles of the M.A.N.A.V. framework.

Reason (R): The 'N' in M.A.N.A.V. stands for Non-biased Algorithms.

- (A) Both A and R are true and R is the correct explanation of A
- (B) Both A and R are true but R is not the correct explanation of A
- (C) A is true but R is false
- (D) A is false but R is true

Q5.

Match List I with List II:

List I	List II
I. VoicERA	A. Privacy-preserving benchmarking platform for health AI
II. BODH	B. Multilingual foundational AI model by BharatGen
III. Vachana	C. National execution layer for multilingual voice and language AI
IV. Param2 17B	D. Text-to-speech model supporting 12 Indian languages

Rows are two lists side by side, not matched pairs; work out the correct pairing.

- (A) I-C, II-A, III-B, IV-D
- (B) I-C, II-A, III-D, IV-B
- (C) I-D, II-A, III-C, IV-B
- (D) I-A, II-C, III-B, IV-D

Q6.

Consider the following statements:

I. BODH is positioned under the Digital India BHASHINI Division.

II. The GPAI secretariat is based in Paris, at the OECD.

III. The IndiaAI Mission's initial GPU target of 10,000 was exceeded, reaching 38,000 GPUs.

Which of the above statements is/are correct?

- (A) I and II only
- (B) I and III only
- (C) I, II and III
- (D) II and III only

Q7.

How many of the following statements about the M.A.N.A.V. framework are correct?

- a. The 'M' stands for Moral and Ethical Systems.
 - b. The framework was unveiled at the Paris AI Action Summit 2025.
 - c. The 'V' stands for Valid and Legitimate Systems.
- (A) All three
(B) Only one
(C) Only two
(D) None

Q8.

Bharat GenAI's sovereign foundational models are tailored to how many Indian languages?

- (A) 22
(B) 12
(C) 18
(D) 24

CPI 2025 Global Picture and Bodies

The Corruption Perceptions Index 2025 was released to assess public sector corruption across 182 countries. Each country is placed on a scale from 0 to 100, where 0 stands for highly corrupt and 100 stands for very clean. The global average score fell to 42, which is the lowest level in over a decade and points to worsening corruption trends worldwide. Around 122 of the 182 countries scored below 50, which shows that serious corruption challenges exist in most nations. Denmark placed first with a score of 89, while only five countries scored above 80, compared with twelve a decade ago. This decline suggests an erosion of governance standards even among countries that once performed strongly. India ranked 91st with a score of 39 out of 100, a figure that sits below the global average. Countries such as Somalia and South Sudan, each scoring 9, ranked among the most corrupt, along with Venezuela. The index began in 1995 and is treated as a leading global indicator of public sector corruption. Countries are compared on the same scale, so their positions can be read side by side. It also highlights how corruption hinders global efforts to combat climate change, and it recommends measures to strengthen institutional integrity.

Q1.

Where is the headquarters of Transparency International, the organisation that releases the Corruption Perceptions Index?

- (A) Geneva, Switzerland
(B) Paris, France
(C) London, United Kingdom
(D) Berlin, Germany

Q2.

Assertion (A): India's rank in the Corruption Perceptions Index 2025 improved compared with 2024.

Reason (R): India's CPI 2025 score of 39 remains below the global average of 42.

- (A) Both A and R are true and R is the correct explanation of A
(B) Both A and R are true but R is not the correct explanation of A
(C) A is true but R is false
(D) A is false but R is true

Q3.

Which Act provides penalties for corruption by public servants and for abetment of an act of corruption?

- (A) Prevention of Corruption Act, 1988
- (B) Prevention of Money Laundering Act, 2002
- (C) Right to Information Act, 2005
- (D) Whistleblower Protection Act, 2014

Q4.

In which year was Transparency International founded?

- (A) 1989
- (B) 2003
- (C) 1995
- (D) 1993

Q5.

Match List I with List II:

List I	List II
I. Central Bureau of Investigation	A. Established in 1956 as Enforcement Unit
II. Directorate of Enforcement	B. Statutory status under CVC Act 2003
III. Central Vigilance Commission	C. Art 148
IV. Comptroller and Auditor General	D. Formed in 1963

Rows are two lists side by side, not matched pairs; work out the correct pairing.

- (A) I-B, II-D, III-C, IV-A
- (B) I-D, II-A, III-C, IV-B
- (C) I-D, II-A, III-B, IV-C
- (D) I-B, II-A, III-C, IV-D

Q6.

Consider the following statements about INTERPOL:

- I. INTERPOL was established in 1923.
- II. Its General Secretariat coordinates policing and administrative tasks.
- III. Its Secretary-General is appointed by the Executive Committee.

Which of the above statements is/are correct?

- (A) I only
- (B) II and III only
- (C) I and II only
- (D) I, II and III

Q7.

How many of the following statements about the Corruption Perceptions Index 2025 are correct?

- I. CPI 2025 assessed 182 countries.
- II. Denmark ranked first with a score of 89.
- III. India ranked 96th in CPI 2025.
- IV. The global average CPI score was 42.

- (A) Only one
- (B) Only three
- (C) Only two
- (D) All four

Q8.

What is the tenure and age limit of the Comptroller and Auditor General (CAG) of India?

- (A) 6 years or up to the age of 65 years
- (B) 4 years or up to the age of 70 years
- (C) 5 years or up to the age of 62 years
- (D) Indefinite tenure at the pleasure of the President

Project and Clearance Practice

The Great Nicobar Mega Infrastructure Project has returned to the spotlight after the National Green Tribunal upheld its Environmental Clearance. The Tribunal found that the project complied with the coastal norms that apply to the island. Great Nicobar is the largest island of the Nicobar group and sits at the southern end of India, where a dense green cover of trees meets long coastlines. Planners see the project as a major step in building trade and strategic capacity near the Malacca Strait. Critics, however, have questioned whether the damage to the island's fragile ecology can be offset. The island is also home to tribal communities. This debate highlights a familiar challenge in India: how to balance national economic and strategic goals with the protection of ecologically sensitive regions and their people. Understanding the project therefore requires knowing about the island's location, its ecology, the people who live there and the legal bodies that review such proposals.

Q1.

Which two national parks are associated with Great Nicobar Island?

- (A) Campbell Bay and Galathea Bay
- (B) Indira Point and Shompen
- (C) Nicobar and Andaman
- (D) Malacca and Singapore

Q2.

Consider the following components of the Great Nicobar Mega Infrastructure Project:

- I. An International Container Transshipment Terminal
- II. A 450 MVA gas and solar-based power plant
- III. A nuclear power plant
- IV. A dual-use civil-military airport

How many of the above components are included in the project?

- (A) Only one
- (B) Only two
- (C) Only four
- (D) Only three

Q3.

Who is appointed as the Chairperson of the National Green Tribunal?

- (A) A serving Union Cabinet Minister
- (B) A Secretary of the Ministry of Environment
- (C) The Chief Justice of India
- (D) A retired Supreme Court judge or High Court Chief Justice

Q4.

In which year was the Great Nicobar Mega Infrastructure Project launched?

- (A) 2021
- (B) 2020
- (C) 2019
- (D) 2022

Q5.

Which ecosystem is mostly found on Great Nicobar Island and is expected to be affected by the project?

- (A) Tropical rainforest
- (B) Mangrove forest
- (C) Deciduous forest
- (D) Alpine forest

Q6.

Match List I with List II:

List I	List II
I. Shompen	A. Southernmost point of India
II. Indira Point	B. National Park
III. Barren Island	C. Particularly Vulnerable Tribal Group
IV. Campbell Bay	D. Active volcano

Rows are two lists side by side, not matched pairs; work out the correct pairing.

- (A) I-B, II-A, III-C, IV-D
- (B) I-A, II-B, III-C, IV-D
- (C) I-C, II-A, III-D, IV-B
- (D) I-D, II-C, III-A, IV-B

Wetlands and the Ramsar Framework

Wetlands are places where land is covered by water, whether the water is salt, fresh or somewhere in between, and whether the cover is seasonal or permanent. The category is broad, and every form of water cover described here is treated as part of one wetland definition. It includes lakes, rivers, underground aquifers, swamps, wet grasslands and peatlands, along with deltas, tidal flats, mangroves, coral reefs and other coastal areas. For classification, wetlands are divided into three segments. The international framework that protects these ecosystems is a treaty that deals with one specific type of habitat. Its formal name is the Convention on Wetlands of International Importance, and it is the only international treaty that addresses a specific ecosystem. Its members meet at a Conference of Parties. Wetland sites that fall under it are known as Ramsar Sites, and India is one of the signatories. A separate register tracks wetland sites where ecological character has changed, is changing, or is likely to change. Such changes can result from technological developments, pollution or other human interference. A site entered on this register shows that its ecological character is under pressure. World Wetlands Day is observed each year, and each year carries its own theme that draws attention to wetland care.

Q1.

Which country has the largest area under protection of the Ramsar Convention?

- (A) Bolivia
- (B) Mexico
- (C) United Kingdom
- (D) China

Q2.

How often does the Conference of Parties (COP) to the Ramsar Convention meet?

- (A) Every year
- (B) Every 2 years
- (C) Every 5 years
- (D) Every 3 years

Q3.

In which year was the Montreux Record launched?

- (A) 1990
- (B) 1971
- (C) 1982
- (D) 2015

Q4.

Read the two statements and choose the correct option.

Assertion (A): Human-made wetlands are one of the three segments used to classify wetlands.

Reason (R): Wetlands are defined only as natural water bodies such as lakes and rivers.

- (A) Both A and R are true and R is the correct explanation of A
- (B) Both A and R are true but R is not the correct explanation of A
- (C) A is true but R is false
- (D) A is false but R is true

Q5.

Match List I with List II:

List I	List II
I. Patna Bird Sanctuary	A. 6 years
II. Chhari-Dhand Wetland Reserve	B. Etah District, Uttar Pradesh
III. Wetland City Accreditation validity	C. Victoria Falls, Zimbabwe
IV. Ramsar COP15 venue	D. Chir Batti night lights

Rows are two lists side by side, not matched pairs; work out the correct pairing.

- (A) I-A, II-D, III-C, IV-B
- (B) I-B, II-D, III-A, IV-C
- (C) I-B, II-A, III-D, IV-C
- (D) I-D, II-B, III-C, IV-A

Q6.

Consider the following statements about wetlands and the Ramsar Convention:

- I. Coral reefs and mangroves are included among wetlands.
- II. The Montreux Record lists wetland sites where ecological character has changed due to human interference.
- III. Chilka Lake is currently listed in the Montreux Record.

Which of the above statements is/are correct?

- (A) II and III only
- (B) I and III only
- (C) I, II and III
- (D) I and II only

Q7.

How many of the following statements about the Ramsar Convention are correct?

- I. It was signed in 1971 in Ramsar, Iran.
- II. It came into force in 1980.
- III. India became a signatory on 1 February 1982.
- IV. It has 172 member States.

- (A) Only one
- (B) Only two
- (C) Only three
- (D) All four

Q8.

Which Indian wetland was placed in the Montreux Record and later removed from it?

- (A) Chilka Lake
- (B) Keoladeo National Park
- (C) Loktak Lake
- (D) Patna Bird Sanctuary

Parliament, Governor and Speaker

Each year, Parliament opens its work with a formal address. At the start of the first session each year, the President addresses both Houses of Parliament assembled together. The address informs Parliament of the reasons for its summons and sets out the policies and legislative agenda of the elected government. After the address, a motion of thanks is moved in the Lok Sabha and discussed. Members may move amendments that express regret or disapproval, for example by pointing to important issues that the address has omitted. Passing the motion indicates the House's confidence in the government. State legislatures follow a similar pattern, with the Governor delivering an address to the Legislative Assembly. The Governor acts as a constitutional head, so the address reflects the policies of the elected government and not the personal opinion of the Governor. The Speaker of the Lok Sabha holds a different kind of office. The House can remove the Speaker through a resolution, but the process requires advance notice and a formal listing in the business of the House. While the removal is under consideration, the Speaker faces specific limits on the role they can play in the House. These rules show how the Constitution balances the roles of the elected government, the presiding officers and the constitutional heads.

Q1.

Consider the following statements about the motion of thanks:

- I. The Prime Minister conventionally replies at the end of the discussion on the motion.
- II. Passage of an amendment to the motion amounts to a direct dissolution of the government.
- III. Defeat of the motion automatically requires the government to resign.

How many of the above statements are correct?

- (A) Only one
- (B) Only two
- (C) Only three
- (D) None

Q2.

Match List I with List II:

List I	List II
I. Article 87(1)	A. Governor acts on aid and advice of the Council of Ministers
II. Article 176	B. Removal of Speaker or Deputy Speaker by resolution
III. Article 163	C. Governor's address to the State Legislature
IV. Article 94	D. President's address to both Houses of Parliament

Rows are two lists side by side, not matched pairs; work out the correct pairing.

- (A) I-B, II-A, III-D, IV-C
- (B) I-D, II-B, III-C, IV-A
- (C) I-D, II-C, III-A, IV-B
- (D) I-B, II-D, III-C, IV-A

Q3.

During the discussion on their own removal, which power can the Lok Sabha Speaker still exercise?

- (A) Presiding over the House
- (B) Speaking and voting in the first instance
- (C) Casting vote in case of a tie
- (D) Moving the removal resolution

Q4.

Which address is delivered at the commencement of the first session after each general election to the Lok Sabha, as well as at the first session of each year?

- (A) The Governor's address to the State Legislature
- (B) The Prime Minister's reply to the motion of thanks
- (C) The President's address to both Houses of Parliament
- (D) The Speaker's address to the Lok Sabha

Q5.

The booklet describes three past instances in which a motion to remove a Lok Sabha Speaker was moved (1954, 1966 and 1987). How many of these Speakers were actually removed?

- (A) One
- (B) Two
- (C) All three
- (D) None

Q6.

What is the minimum notice period before a resolution to remove the Lok Sabha Speaker can be moved?

- (A) 7 days
- (B) 10 days
- (C) 21 days
- (D) 14 days

Q7.

Consider the following statements:

- I. The Speaker can be removed by a resolution passed by a majority of all the then members of the House.
- II. The Speaker may exercise a casting vote in case of a tie during discussion on own removal.
- III. The Speaker cannot preside over the House during discussion on own removal.

Which of the above statements is/are correct?

- (A) II and III only
- (B) I and III only
- (C) I, II and III
- (D) I and II only

Defence and missiles: MCQ practice

February 2026 brought several developments in India's defence sector. The Agni-III missile was successfully tested, a step that strengthens the country's strategic deterrence and its capacity for long-range strikes. The missile belongs to the ballistic class. Alongside missiles, engine development also drew attention. Progress on the Kaveri Engine Programme was reviewed at a research establishment, with the aim of strengthening indigenous military aviation capability. The review focused on progress made so far. The programme is part of India's Aatmanirbhar Bharat push in defence technology and seeks an indigenous jet engine for fighter aircraft. On the global stage, the World Defence Show 2026 was held as a major international exhibition. The event showcased innovations across the defence sector. Its exhibits covered new technologies. Together, these developments show how missile testing, engine research and international showcases fit into

the wider defence agenda. Each one links a technology to a national goal, and this link is worth remembering.

Q1.

How often is the World Defence Show held, according to the booklet?

- (A) Biennial
- (B) Annual
- (C) Every five years
- (D) Once in a decade

Q2.

Assertion (A): The Agni-III missile can carry nuclear warheads.

Reason (R): Agni-III was developed by the Gas Turbine Research Establishment.

- (A) Both A and R are true and R explains A
- (B) Both A and R are true but R does not explain A
- (C) A is false but R is true
- (D) A is true but R is false

Q3.

The Kaveri Engine Programme is an indigenous jet engine effort meant for which aircraft?

- (A) Commercial airliners
- (B) LCA Tejas
- (C) Cargo drones
- (D) Rocket boosters

Q4.

Match List I with List II:

List I	List II
I. Venue where Kaveri Engine Programme progress was reviewed	A. Defence Research and Development Organisation
II. Developer of the Agni-III missile	B. General Authority for Military Industries
III. Organiser of the World Defence Show	C. Riyadh
IV. Host city of the World Defence Show 2026	D. Gas Turbine Research Establishment

Rows are two lists side by side, not matched pairs; work out the correct pairing.

- (A) I-D, II-A, III-B, IV-C
- (B) I-C, II-A, III-B, IV-D
- (C) I-C, II-B, III-D, IV-A
- (D) I-C, II-D, III-A, IV-B

Q5.

Which of these is NOT among the five defence domains showcased at the World Defence Show 2026?

- (A) Air
- (B) Sea
- (C) Space
- (D) Cyber

Q6.

The booklet describes the range of the Agni-III missile as which of the following?

- (A) Beyond 3000 km
- (B) Up to 2000 km
- (C) Under 1000 km
- (D) Under 500 km

Q7.

- I. The Agni-III missile is powered by a two-stage solid-fuel system.
- II. The Kaveri Engine Programme seeks an indigenous jet engine for fighter aircraft.
- III. The World Defence Show is held every year.

Which of the above statements is/are correct?

- (A) II and III only
- (B) I and III only
- (C) I, II and III
- (D) I and II only

Q8.

Consider the following statements:

- I. The Agni-III missile can carry only conventional warheads.
- II. The Agni-III missile was tested from Odisha.
- III. A jet engine converts chemical energy of fuel into mechanical energy and thrust.

How many of the above statements are correct?

- (A) Only one
- (B) Only two
- (C) Only three
- (D) None

IEEPA: Scope and Purpose

The International Emergency Economic Powers Act is a United States law that allows the President to respond to serious threats to the country. Its main character is that of a sanctions instrument, and it is not a general law for regulating trade. The emergencies it addresses are described as unusual and extraordinary threats that may affect national security, foreign policy and economic stability. Under the Act, the President may regulate or prohibit international financial transactions. The President may also block trade and commercial dealings with specific countries, entities or individuals. Since its enactment, numerous national emergencies have been declared under this law, and many have involved economic sanctions against countries such as Iran, North Korea and Russia. Before the recent tariff dispute, however, no United States President had used this law as a mechanism to impose trade tariffs. Its use for tariffs was therefore a new application of an older statute. The Act is an emergency framework, and its powers are tied to the emergency situation it is meant to address rather than to everyday trade rules. In short, the Act combines a set of strong economic powers with a requirement that a genuine emergency exist. The law also lets the President restrict imports or exports in certain emergency contexts, which makes it a broad instrument in crises.

Q1.

Which US President enacted the International Emergency Economic Powers Act in 1977?

- (A) Richard Nixon
- (B) Jimmy Carter
- (C) Gerald Ford
- (D) Ronald Reagan

Q2.

Which earlier legislation did the IEEPA replace?

- (A) Tariff Act of 1930
- (B) Trade Act of 1974
- (C) Trade Expansion Act of 1962
- (D) Trading with the Enemy Act (1917)

Q3.

What must the President formally do before invoking the IEEPA?

- (A) Formally declare a National Emergency
- (B) Seek a ruling from the Supreme Court
- (C) Obtain a two-thirds vote in the Senate
- (D) Publish a list of foreign assets

Q4.

The Liberation Day Executive Order that declared a National Emergency to support tariffs is dated:

- (A) 15 April 2025
- (B) 02 February 2025
- (C) 02 April 2024
- (D) 02 April 2025

Q5.

Read the following statements about the IEEPA:

- I. The threat it addresses must originate outside the United States.
- II. It was enacted in 1977 to replace the Tariff Act of 1930.
- III. It can be used to freeze foreign assets held in the United States.

Which of the above statements is/are correct?

- (A) I and II only
- (B) II and III only
- (C) I and III only
- (D) I, II and III

Q6.

How many of the following statements about the IEEPA are correct?

- I. It was enacted in 1977 to replace the Trade Expansion Act of 1962.
- II. The President may invoke it without declaring any emergency.
- III. It can be used to block trade with specific entities.

- (A) Only one
- (B) Only two
- (C) Only three
- (D) All of the above

Rollback and the 2026 Trade Deal

The rollback of the Liberation Day tariffs benefits a large share of India's exports to the United States. The goods that benefit from it now face only the standard tariff rates that apply to most trading partners, which is a major change for exporters. Some duties still remain in force. Section 232 duties continue to apply to steel, aluminium and certain automotive components, so the rollback does not remove every barrier. The 2026 India-US trade deal goes further than tariff relief and includes commitments from India in several areas. These commitments cover the purchase of American products and steps to reduce barriers that affect American exports. Together, the deal is described as a strategic economic realignment between the two countries, and it is presented as a step towards a market with zero tariffs. The rollback applies to goods that had previously faced a higher levy in the American market. Trade relations between the two countries are substantial, and India's exports to the United States are an important part of that relationship. The deal's commitments also show how India has agreed to adjust parts of its own import policy. The arrangement is therefore a combination of tariff relief and commitments from India.

Q1.

Before the rollback, what levy did the benefitting Indian goods face?

- (A) 10%
- (B) 18%
- (C) 25%
- (D) 50%

Q2.

Which penalty has been eliminated under the 2026 India-US trade deal?

- (A) A 10% penalty on textile exports
- (B) An 18% penalty on automotive imports
- (C) A 50% penalty on steel imports
- (D) A 25% penalty for purchasing Russian oil

Q3.

India aims to remove import barriers for which US agricultural exports?

- (A) Cotton and nuts
- (B) Tea and coffee
- (C) Rice and sugar
- (D) Wheat and dairy

Q4.

Assertion (A): India's commitments under the 2026 trade deal extend beyond tariff relief.

Reason (R): India has committed to massive procurement of US energy, technology and agricultural products.

In the context of the above, which of the following is correct?

- (A) Both A and R are true, but R does not explain A
- (B) A is false but R is true
- (C) Both A and R are true and R explains A
- (D) A is true but R is false

Q5.

What rate of Section 232 tariff remains in force on steel and aluminium?

- (A) 18%
- (B) 25%
- (C) 50%
- (D) 55%

Q6.

Read the following statements about the India-US trade arrangement:

- I. Section 232 tariffs of 50% on steel and aluminium remain in force.
- II. The 25% penalty for purchasing Russian oil has been retained.
- III. India aims to remove barriers for US exports such as cotton and nuts.

Which of the above statements is/are correct?

- (A) I and II only
- (B) II and III only
- (C) I, II and III
- (D) I and III only

Q7.

How many of the following statements about the rollback are correct?

- I. The rollback benefits goods that previously faced an 18% levy.
- II. The 25% penalty for purchasing Russian oil remains in force.
- III. India will halt the purchase of Russian crude oil.

- (A) Only one
- (B) Only two
- (C) Only three
- (D) All of the above

US Congress Structure

The United States Congress is the federal legislature and has two chambers. The lower chamber is the House of Representatives, whose members serve shorter terms and face voters more often than senators do. The upper chamber is the Senate, in which every state has the same number of seats regardless of population. Senators serve longer terms, and their elections are staggered so that only part of the chamber is chosen at any one election cycle. Congress meets in the Capitol in Washington, D.C. A ruling of the Supreme Court has made congressional approval necessary for broad tariffs, which places the legislature at the centre of decisions on trade. Trade between India and the United States is substantial, and India exports more to the United States than it imports from it. The United States is also an investor in India, and its investments have built up over many years. The Congress is described as a bicameral body, which means that it consists of two houses. The Senate is the upper body and the House is the lower body in the American legislature. Senators are called senators, and they represent their states in the upper house. Each senator therefore speaks for one state in the upper chamber.

Q1.

How many seats does the House of Representatives have?

- (A) 100
- (B) 435
- (C) 270
- (D) 300

Q2.

What fraction of the Senate is elected every two years?

- (A) One-half
- (B) One-fourth
- (C) One-third
- (D) Two-thirds

Q3.

For how many years are US senators elected?

- (A) Six years
- (B) Two years
- (C) Four years
- (D) Eight years

Q4.

Assertion (A): Members of the House face voters more often than senators do.

Reason (R): House members are elected for two years, whereas senators are elected for six years.

In the context of the above, which of the following is correct?

- (A) A is true but R is false
- (B) Both A and R are true, but R does not explain A
- (C) A is false but R is true
- (D) Both A and R are true, and R explains A

Q5.

Match List I with List II:

List I	List II
I. Seats in the Senate	A. 6 years
II. Seats in the House of Representatives	B. 2 years
III. Term of a senator	C. 435
IV. Term of a House member	D. 100

Rows are two lists side by side, not matched pairs; work out the correct pairing.

- (A) I-B, II-C, III-A, IV-D
- (B) I-B, II-C, III-D, IV-A
- (C) I-D, II-C, III-A, IV-B
- (D) I-A, II-B, III-C, IV-D

Q6.

Consider the following statements about the US Congress:

- I. The Senate has 100 seats in total.
- II. Every state has two seats in the Senate.
- III. The House of Representatives has the same term length as the Senate.

Which of the above statements is/are correct?

- (A) I and II only
- (B) II and III only
- (C) I and III only
- (D) I, II and III only

Q7.

How many of the following statements about the US Congress are correct?

- I. The Senate is the upper body of the US Congress.
- II. The House of Representatives has 100 seats.
- III. The US Congress is a unicameral legislature.

- (A) Only two
- (B) Only one
- (C) Only three
- (D) All of the above

Cold War Arms Control Milestones: MCQ Practice

Arms control between the United States and the Soviet Union developed through a long series of talks and agreements. The booklet defines disarmament as reducing or eliminating weapons, either unilaterally or mutually, to promote global peace and security. In 1967, US President Lyndon B. Johnson warned that a Soviet missile defence system around Moscow raised the danger of a destabilising first-strike capability. The Strategic Arms Limitation Talks, known as SALT, then produced a set of agreements. The first round ran from 1969 to 1972, and SALT II followed from 1972 to 1979. Later instruments followed. The Strategic Arms Reduction Treaty, known as START I, was concluded in 1991, and START II was negotiated in 1993. The Strategic Offensive Reductions Treaty, or SORT, followed in 2002. Missile defence, delivery systems and warhead numbers were each addressed in different instruments. Each of these agreements is dated and named in the booklet, and the sequence runs from the late 1960s to the early 2000s. The talks took place during Cold War rivalry between the two powers, which is the context in which each instrument was negotiated. The booklet presents these events in chronological order. Taken together, these agreements show how the two powers attempted to manage their nuclear balance over several decades.

Q1.

Which agreement was produced by the first round of the Strategic Arms Limitation Talks (1969-1972)?

- (A) SALT II
- (B) START I
- (C) Moscow Treaty (SORT)
- (D) Anti-Ballistic Missile (ABM) Treaty

Q2.

Why did the United States never ratify SALT II?

- (A) Russia's withdrawal after the US exit from the ABM Treaty
- (B) Soviet military intervention in Afghanistan
- (C) Expiry of START I in 2009
- (D) Cap of 6000 nuclear warheads under START I

Q3.

START I (1991) capped nuclear warheads at what number?

- (A) 3,500
- (B) 2,200
- (C) 6,000
- (D) 1,700

Q4.

Assertion (A): START II collapsed.

Reason (R): Russia withdrew after the United States exited the ABM Treaty.

- (A) Both A and R are true and R is the correct explanation of A
- (B) Both A and R are true but R is not the correct explanation of A
- (C) A is true but R is false
- (D) A is false but R is true

Q5.

Match List I with List II:

List I	List II
I. SALT II	A. Enforced inspections
II. START I	B. Also known as the Moscow Treaty
III. START II	C. Limits on nuclear delivery systems
IV. SORT	D. Aim of reducing nuclear weapons to 3,500

Rows are two lists side by side, not matched pairs; work out the correct pairing.

- (A) I-B, II-A, III-C, IV-D
- (B) I-C, II-A, III-D, IV-B
- (C) I-D, II-C, III-A, IV-B
- (D) I-A, II-D, III-B, IV-C

Q6.

Consider the following statements:

- I. SORT was an interim agreement between the United States and Russia.
- II. START II set a target of 6000 nuclear weapons.
- III. START I expired in 2009.

Which of the above statements is/are correct?

- (A) I and II only
- (B) II and III only
- (C) I and III only
- (D) I, II and III

Q7.

How many of the following statements are correct?

- I. The ABM Treaty restricted deployment of missile defence systems.
- II. SORT is also known as the New START Treaty.
- III. The United States ratified SALT II in 1979.

- (A) Only one
- (B) Only two
- (C) Only three
- (D) All of the above

Nuclear Treaties and Control Regimes: MCQ Practice

Global efforts to limit nuclear weapons rest on several separate instruments rather than on one single agreement. The booklet presents a set of treaties related to nuclear disarmament and a set of key nuclear control regimes. These items are arranged in a sequence that begins with the Outer Space Treaty. The booklet also gives a short definition of disarmament, which involves reducing or eliminating weapons either unilaterally or mutually. Export regimes such as the Missile Technology Control Regime, the Australia Group and the Wassenaar Arrangement coordinate controls on sensitive goods, so that member states apply shared rules to certain exports. The booklet lists each instrument with its own details, and the instruments were developed over several decades, from the late 1960s onward. On 6 and 9 August 1945, the United States dropped atomic bombs, 'Little Boy' on Hiroshima and 'Fat Man' on Nagasaki, in Japan. The booklet also records India's Pokhran tests of 1974 and 1998 as part of this history. Nuclear-weapon-free zones are regions committed to banning nuclear weapons, and the booklet describes them as part of the same broader topic.

Q1.

Which 1967 instrument bans the deployment of weapons of mass destruction in outer space?

- (A) Treaty on Non-Proliferation of Nuclear Weapons
- (B) Comprehensive Nuclear Test Ban Treaty
- (C) Outer Space Treaty
- (D) Wassenaar Arrangement

Q2.

The Treaty on Non-Proliferation of Nuclear Weapons (1968) classifies nations into which two categories?

- (A) Nuclear-weapon and non-nuclear-weapon states
- (B) Nuclear-armed and nuclear-free zones
- (C) Export-controlled and voluntary members
- (D) Signatory and ratifying states

Q3.

Why has the Comprehensive Nuclear Test Ban Treaty (1996) not become operational?

- (A) The IAEA has rejected its verification role
- (B) Ratification by key nuclear-armed states is pending
- (C) It was never signed by any country
- (D) The United Nations abandoned the treaty

Q4.

Assertion (A): The Australia Group was formed in 1985 as an informal export control forum.

Reason (R): It was established after chemical weapons were used in the Iran-Iraq War.

- (A) A is true but R is false
- (B) A is false but R is true
- (C) Both A and R are true but R is not the correct explanation of A
- (D) Both A and R are true and R is the correct explanation of A

Q5.

Match List I with List II:

List I	List II
I. Treaty on Non-Proliferation of Nuclear Weapons	A. 1996
II. Comprehensive Nuclear Test Ban Treaty	B. 1987
III. Treaty on Prohibition of Nuclear Weapons	C. 1968
IV. Missile Technology Control Regime	D. 2017

Rows are two lists side by side, not matched pairs; work out the correct pairing.

- (A) I-D, II-B, III-A, IV-C
- (B) I-C, II-A, III-D, IV-B
- (C) I-C, II-D, III-A, IV-B
- (D) I-D, II-B, III-C, IV-A

Q6.

Consider the following statements:

- I. The Missile Technology Control Regime is an informal political understanding.
- II. The Treaty on Prohibition of Nuclear Weapons permits states that have signed it to possess nuclear weapons.
- III. The Comprehensive Nuclear Test Ban Treaty seeks to ban nuclear weapon testing for civilian and military use.

Which of the above statements is/are correct?

- (A) I and II only
- (B) II and III only
- (C) I and III only
- (D) I, II and III

Q7.

How many of the following statements are correct?

- I. The Wassenaar Arrangement promotes transparency in conventional arms and dual-use exports.
- II. The Australia Group is a formal treaty with binding inspection rules.
- III. The Treaty on Prohibition of Nuclear Weapons bans the development of nuclear weapons.

- (A) Only one
- (B) Only two
- (C) Only three
- (D) All of the above

2026 Election Results: Practice MCQ

Bangladesh has completed its 13th General Election, a contest that marks a major turning point in national politics. The vote came after roughly eighteen months of upheaval. That upheaval was led by students, and an interim arrangement governed the country for a period before the election. The result has ended a long stretch in which a single party held the country's politics in a firm grip, and the booklet presents it as a major political shift.

Tarique Rahman, who had emerged as the top leader of his party, has now taken office as Prime Minister. He took the oath at a formal ceremony in the capital, and the event was attended by a guest. He is the child of two former leaders of the country, and his arrival in power follows the overthrow of the government that preceded it.

The new government therefore begins its work after a period of intense change in national life. Several parties have won seats in the new legislature, and the composition of the house reflects the outcome of the vote. The previous Prime Minister had left the country after the uprising. The

booklet records these events in one sequence, from the upheaval to the new administration.

Q1.

Which party, led by Tarique Rahman, won the 13th General Election in Bangladesh?

- (A) Awami League
- (B) Bangladesh Nationalist Party
- (C) Jatiya Party
- (D) Jamaat-e-Islami

Q2.

Where did Tarique Rahman take the oath of office as Prime Minister?

- (A) Rajshahi Secretariat
- (B) Sylhet Stadium
- (C) Parliament South Plaza in Dhaka
- (D) Chittagong Circuit House

Q3.

Whose two-decade dominance over Bangladeshi politics did the 2026 election end?

- (A) Awami League
- (B) Bangladesh Nationalist Party
- (C) Jatiya Party
- (D) Jamaat-e-Islami

Q4.

Consider the assertion and reason below.

Assertion (A): Bangladesh's legislature is unicameral.

Reason (R): 300 members are elected directly through the first-past-the-post system.

- (A) A is true but R is false
- (B) A is false but R is true
- (C) Both A and R are true and R is the correct explanation of A
- (D) Both A and R are true but R is not the correct explanation of A

Q5.

Match List I with List II:

List I	List II
I. Bangladesh Nationalist Party	A. 68 seats
II. Jamaat-e-Islami	B. 6 seats
III. National Citizen Party	C. 50 seats
IV. Reserved seats for women	D. 209 seats

Rows are two lists side by side, not matched pairs; work out the correct pairing.

- (A) I-C, II-D, III-B, IV-A
- (B) I-D, II-B, III-C, IV-A
- (C) I-D, II-A, III-B, IV-C
- (D) I-A, II-D, III-B, IV-C

Q6.

Consider the following statements regarding the 2026 Bangladesh election:

- I. Om Birla attended the swearing-in ceremony of the new Prime Minister.
- II. Jamaat-e-Islami won more seats than the Bangladesh Nationalist Party.
- III. The Bangladesh Nationalist Party was founded in 1978.

Which of the above statements is/are correct?

- (A) I and II only
- (B) II and III only
- (C) I, II and III
- (D) I and III only

Q7.

How many of the following statements are correct?

- I. Tarique Rahman succeeded the government of Sheikh Hasina.
- II. The Bangladesh Nationalist Party won 68 seats in the 2026 election.
- III. Tarique Rahman is the son of Ziaur Rahman.

- (A) Only one
- (B) Only two
- (C) Only three
- (D) All of the above

India-Bangladesh Ties: Practice MCQ

Relations between India and Bangladesh have passed through several phases, shaped by security concerns, trade and the approach of successive governments. Some periods were difficult, while others saw closer cooperation. The relationship has therefore been closely tied to the leadership in Dhaka at each stage.

Trade is central to the relationship. Cooperation extends to infrastructure, energy and defence, and both sides have pursued connectivity projects such as road and rail links. Visa arrangements also matter to citizens who travel for healthcare and tourism, and the visa systems have been improved to support such travel.

Security is central to the present agenda. The booklet lists several priorities for the new government. These include managing political pressure over a former leader's presence in India, preventing a drift of Bangladesh toward other partners, and countering extremism and insurgency that threatens stability. Together these priorities link diplomacy with domestic politics.

After a period of sharp public feeling in Bangladesh, the relationship is being reshaped. Many citizens viewed India's support for a previous administration with suspicion, and the new government must balance these views with the need to keep trade and connectivity running smoothly. The booklet presents these issues together, so trade, security and connectivity are discussed as parts of one relationship.

Q1.

Which bridge, built over the Feni River, connects Sabroom in Tripura with Ramgarh in Bangladesh?

- (A) Maitree Super Thermal Power Project
- (B) Bharat Bangla Maitri Bridge
- (C) India-Bangladesh Friendship Pipeline
- (D) Khulna-Mongla Port Rail Line

Q2.

Which joint army exercise is conducted between India and Bangladesh?

- (A) Bongosagar
- (B) Khanjar
- (C) Sampriti
- (D) Mukti Bahini

Q3.

What was the value of India-Bangladesh trade in FY 2023-24?

- (A) US\$ 14.01 billion
- (B) US\$ 1.4 billion
- (C) US\$ 41.4 billion
- (D) US\$ 4.01 billion

Q4.

Consider the assertion and reason below.

Assertion (A): India's relations with Bangladesh were strained during the 2001-2006 BNP-led government.

Reason (R): India accused that regime of sheltering North-East insurgent groups.

- (A) A is true but R is false
- (B) A is false but R is true
- (C) Both A and R are true and R is the correct explanation of A
- (D) Both A and R are true but R is not the correct explanation of A

Q5.

Match List I with List II:

List I	List II
I. Land Boundary Agreement	A. 2001-2006
II. Interim period of anti-India sentiment	B. 2009-2024
III. 'Golden Chapter' under Sheikh Hasina	C. 2024-2026
IV. BNP-led government with Jamaat-e-Islami	D. 2015

Rows are two lists side by side, not matched pairs; work out the correct pairing.

- (A) I-C, II-B, III-D, IV-A
- (B) I-D, II-A, III-B, IV-C
- (C) I-C, II-A, III-B, IV-D
- (D) I-D, II-C, III-B, IV-A

Q6.

Consider the following statements about India-Bangladesh relations:

- I. Security priorities include preventing Bangladesh from drifting toward Pakistan or China.
- II. The Bharat Bangla Maitri Bridge was built over the Teesta River.
- III. Duty-free access on tariff lines has been expanded through the South Asian Free Trade Area Agreement.

Which of the above statements is/are correct?

- (A) I and II only
- (B) II and III only
- (C) I, II and III
- (D) I and III only

Q7.

How many of the following statements are correct?

- I. India and Bangladesh established diplomatic relations in 1971.
 - II. The Kolkata-Dhaka-Agartala bus service began in 2015.
 - III. The Bongosagar exercise is an army exercise between India and Bangladesh.
- (A) Only one
 - (B) Only two
 - (C) Only three
 - (D) All of the above

Kuki-Zomi and Meitei Tensions

Manipur has witnessed sharp tensions between Kuki-Zomi tribal groups and the Meitei community, and the violence that followed drew wide attention in the state. The conflict is set against a long history of differences over land, representation and administration. Meiteis form the largest population group in Manipur, while the hill areas cover most of the state's land. Hill communities have raised their own concerns, and different groups have sought political autonomy or separate administrative units. Court proceedings have also played a part in the sequence of events, as the Manipur High Court dealt with petitions connected to the community's status. The state government took several administrative actions during the period, including steps relating to armed groups and land-related disputes in the hills. Each of these decisions was received differently by the communities concerned, and the events were reported as a serious law and order crisis. The events placed heavy strain on relations between the groups living in the state. The episode also drew comment on the state's wider historical divisions. The disruption affected the daily life of people across the state, and the government faced sustained pressure to restore public confidence. The sequence of events was closely followed in the wider country, and it raised questions about how the state would manage its divided communities in the months ahead.

Q1.

Which community's demand for Scheduled Tribe status is listed among the immediate factors that triggered the violence?

- (A) Kuki-Zomi tribals
- (B) Meitei community
- (C) Naga groups
- (D) Kuki National Army

Q2.

What did Kuki groups demand regarding Chief Minister Biren Singh?

- (A) Resignation of the Chief Minister
- (B) Early general elections
- (C) Creation of a separate state
- (D) Dissolution of the Assembly

Q3.

On what ground did the state government evict 16 Kuki households?

- (A) Failure to pay land tax
- (B) Illegal mining
- (C) Forest encroachment
- (D) Refusal to vacate schools

Q4.

Match List I with List II:

List I	List II
I. Meitei demand for ST status persisted since	A. High Court petition
II. Meiteis lost tribal status after	B. March 2023
III. Meitei Tribe Union petitioned	C. 2012
IV. Withdrawal from suspension of operations agreement	D. 1949 merger

Rows are two lists side by side, not matched pairs; work out the correct pairing.

- (A) I-B, II-C, III-A, IV-D
- (B) I-C, II-D, III-A, IV-B
- (C) I-A, II-C, III-B, IV-D
- (D) I-A, II-D, III-C, IV-B

Q5.

Examine the statements below.

- I. Violence between Kuki-Zomi tribals and the Meitei community was the first clash of its kind in three decades.
- II. A 2023 High Court direction asked the state to consider a Meitei request for ST status.
- III. The state government renewed its suspension of operations agreement with Kuki armed groups in March 2023.

Which of the above statements is/are correct?

- (A) I and III only
- (B) II and III only
- (C) I, II and III
- (D) I and II only

Q6.

How many of the statements below are correct?

- I. Violence erupted between Kuki-Zomi tribals and the Meitei community.
- II. The Manipur government evicted Meitei households over forest encroachment.
- III. The Meitei community backed Chief Minister Biren Singh during the crisis.

- (A) Only one
- (B) All of the above
- (C) Only two
- (D) Only three

Manipur's Long-Standing Divides

Manipur's social and political life is shaped by a set of long-standing divides. Its population is not spread evenly across the state's landscape, and the differences between its plains and its hills have affected how land and political representation are organised. Communities have different rights when it comes to property, and these rules have been points of debate over decades. Political representation has also been contested, with hill communities raising concerns about how seats are distributed in the legislature. Census data and the drawing of constituency boundaries have drawn attention from several groups, and the state's external border has added to security concerns in recent years. Several groups have also raised questions about how their identities and cultural ways of life can be protected. The state's constitutional history includes several stages of change, and its institutions have developed through those stages. Public debate on these matters continues in the state's assembly and in the wider press. Such debates have a history that goes back many years. The Manipur High Court, Parliament and the state government have all been involved in such questions at different times. Political debates on these questions have shaped the state's public life for a long time. These issues remain central to the way its politics is understood.

Q1.

What percentage of Manipur's population is made up of Meiteis?

- (A) 40 per cent
- (B) 52 per cent
- (C) 10 per cent
- (D) 89 per cent

Q2.

How many of the statements below are correct?

- I. Meiteis live mainly in the valley areas of Manipur.
- II. Meiteis can buy land in every part of Manipur.
- III. Imphal is the capital of Manipur.

- (A) Only one
- (B) Only three
- (C) All of the above
- (D) Only two

Q3.

Where can tribal communities buy land, a right that Meiteis do not have across most of the state?

- (A) Imphal Valley
- (B) Border areas
- (C) Refugee camps
- (D) Forest reserves

Q4.

Examine the statements below.

- I. Hill areas cover most of Manipur's land.
- II. Hill areas hold 40 of the 60 assembly seats.
- III. Tribal communities can buy land in the Imphal Valley.

Which of the above statements is/are correct?

- (A) I and II only
- (B) II and III only
- (C) I and III only
- (D) I, II and III

Q5.

Which Act is described as giving extensive powers to the military in affected regions?

- (A) Citizenship Amendment Act 2019
- (B) Sixth Schedule
- (C) Armed Forces (Special Powers) Act
- (D) Protection of Civil Rights Act

Q6.

Match List I with List II:

List I	List II
I. Rapid growth of villages in Churachandpur	A. Demand for greater political autonomy
II. Myanmar coup triggering a refugee crisis	B. Drug trafficking and cross-border crime
III. Proximity to Golden Triangle and porous borders	C. Migrant influx
IV. Nagas and Kukis demand	D. Refugee crisis in India's North-East

Rows are two lists side by side, not matched pairs; work out the correct pairing.

- (A) I-C, II-A, III-D, IV-B
- (B) I-C, II-D, III-B, IV-A
- (C) I-B, II-C, III-A, IV-D
- (D) I-A, II-C, III-D, IV-B

Records of President's Rule

Indian states have sometimes been placed under direct central control when their elected governments cannot run the administration in line with the Constitution. This arrangement is commonly called by a name that refers to the President, and it sits within a wider framework of constitutional emergency provisions. The history of this arrangement reaches back to the early years after independence, when Punjab, PEPSU and Andhra were among the first units brought under it. The records of the later instances show wide differences in how often and for how long each state remained under it. Over time the power drew sustained attention from the courts, and questions about how far the central government could go in using it became part of legal debate. The Constitution sets out the procedure for placing a state under such control, the approval needed from Parliament, and the period for which the arrangement can run. Manipur is among the states that have experienced this arrangement several times. Its political history is therefore closely tied to the repeated use of this power, and the issue remains a subject of constitutional discussion in the state and at the national level. The records are useful for comparing one instance with another.

Q1.

Under which Article can the President issue a proclamation when a State Government cannot be carried on in accordance with the Constitution?

- (A) Article 352
- (B) Article 355
- (C) Article 356
- (D) Article 370

Q2.

Till Parliament approves a proclamation, what can the President do with the State Legislative Assembly?

- (A) Dissolve it immediately
- (B) Only suspend it
- (C) Transfer its powers to Parliament
- (D) Appoint a new Assembly

Q3.

Who can declare that the powers of the State Legislature are to be exercised by Parliament?

- (A) The Governor
- (B) The Chief Minister
- (C) The Election Commission
- (D) The President

Q4.

Assertion (A): A proclamation revoking President's Rule does not need parliamentary approval.

Reason (R): Parliamentary approval is required for every revocation of President's Rule.

- (A) Both A and R are true and R is the correct explanation of A
- (B) Both A and R are true but R is not the correct explanation of A
- (C) A is true but R is false
- (D) A is false but R is true

Q5.

Match List I with List II:

List I	List II
I. Punjab (first instance)	A. 1954
II. PEPSU (first instance)	B. 1951
III. Andhra (first instance)	C. 1975
IV. 38th Amendment Act	D. 1953

Rows are two lists side by side, not matched pairs; work out the correct pairing.

- (A) I-C, II-A, III-B, IV-D
- (B) I-B, II-D, III-A, IV-C
- (C) I-C, II-D, III-A, IV-B
- (D) I-A, II-D, III-B, IV-C

Q6.

Examine the statements below.

- I. A resolution approving a proclamation can be passed by a simple majority in either House.
- II. The proclamation of President's Rule is issued by Parliament, not by the President.
- III. Under President's Rule, the President can take up the functions of the State Government.

Which of the above statements is/are correct?

- (A) II and III only
- (B) I and III only
- (C) I, II and III
- (D) I and II only

Q7.

How many of the statements below are correct?

- I. President's Rule is popularly known as State Emergency.
- II. Manipur was the first state placed under President's Rule.
- III. The President can revoke a proclamation only after both Houses approve it.

- (A) Only one
- (B) Only two
- (C) Only three
- (D) All of the above

Vision and Pillars MCQ

Nirmala Sitharaman presented the Union Budget for the financial year 2026-27, which is her ninth consecutive Union Budget. The budget was prepared in a newly inaugurated building, and the government has presented it as a blueprint driven by Yuva Shakti. The budget is guided by a set of principles that the government has set out for the country's economy. The budget was tabled on a day of the week that had never before been used for a Union Budget, which made it a first for Parliament. The agenda is organised into six pillars of growth, and the pillars cover several different parts of the economy. Each pillar addresses a separate area, and together they form the core of the government's growth agenda for the coming year. The budget is a statement of the estimated receipts and expenditure of the government for a financial year, and it is presented in

Parliament. Preparing the budget involves several departments and bodies, and the presentation is one step in a longer process that the government follows each year. The budget also reflects the government's approach to growth for the coming year, as set out in its official budget material. Taken as a whole, the budget is a blueprint for the country's economic growth in the year ahead.

Q1.

Match List I with List II:

List I	List II
I. Day on which the budget was tabled	A. Regional growth and urban development
II. Building where the budget was prepared	B. Sunday
III. Pillar for developing city economic regions	C. Manufacturing in seven strategic sectors
IV. Pillar for scaling up manufacturing	D. Kartavya Bhawan

Rows are two lists side by side, not matched pairs; work out the correct pairing.

- (A) I-C, II-D, III-B, IV-A
- (B) I-D, II-C, III-B, IV-A
- (C) I-B, II-D, III-A, IV-C
- (D) I-D, II-A, III-B, IV-C

Q2.

On which day of the week was the Union Budget 2026-27 tabled, marking a Parliamentary first?

- (A) Saturday
- (B) Monday
- (C) Sunday
- (D) Friday

Q3.

How many of the following statements about the Union Budget 2026-27 are correct?

- I. Sustain Economic Growth is one of the three Kartavyas.
 - II. The first-ever Union Budget was tabled on a Monday.
 - III. The budget was prepared in the Kartavya Bhawan.
 - IV. Developing city economic regions is one of the six pillars of growth.
- (A) Only three
 - (B) Only one
 - (C) Only two
 - (D) All of the above

Q4.

Assertion (A): The first-ever Union Budget was tabled on a Sunday.

Reason (R): Creating champion MSMEs is one of the six pillars of growth.

- (A) Both A and R are true and R is the correct explanation of A
- (B) Both A and R are true but R is not the correct explanation of A
- (C) A is true but R is false
- (D) A is false but R is true

Q5.

Consider the following statements:

- I. Ensuring long-term security and stability in economic and financial systems is one of the six pillars of growth.
- II. The first-ever Union Budget was tabled on a Saturday, a Parliamentary first.
- III. Fulfill Aspirations is one of the three Kartavyas.

Which of the above statements is/are correct?

- (A) I, II and III
- (B) II and III only
- (C) I and II only
- (D) I and III only

Q6.

Which of the following is one of the three Kartavyas that guide the Union Budget 2026-27?

- (A) Digital Bharat Mission
- (B) Atmanirbhar Bharat Mission
- (C) Ayushman Bharat Mission
- (D) Sabka Saath, Sabka Vikas

Q7.

Which pillar of growth focuses on the long-term stability of economic and financial systems?

- (A) Ensuring long-term security and stability in economic and financial systems
- (B) Delivering infrastructure development across the country
- (C) Developing city economic regions
- (D) Rejuvenating legacy industrial sectors to boost productivity and competitiveness

Budget Process and Parliament MCQ

The Constitution requires the government to present an annual statement of its estimated receipts and expenditure for each financial year before both Houses of Parliament. The word budget itself does not appear anywhere in the Constitution, although the annual statement is treated as the budget. The process has several stages. It begins with presentation of the statement, followed by general discussion and scrutiny by departmental committees. Then Parliament votes on demands for grants, passes an appropriation bill and passes a finance bill. The preparation of the statement is handled by a division of the finance ministry, which works with other ministries and a government policy body. Money bills and finance bills follow special procedures, and the two houses of Parliament have different roles in them. Budgets have been presented in India for well over a century, and the earliest one came before independence. The annual statement sets out the government's expected revenue and spending for the year ahead, and it also records the actual receipts and expenditure of the closing year. The budget is presented in Parliament on a date fixed for the purpose. Parliament examines the statement in a series of stages each year, and each stage has its own role in the process.

Q1.

Which Article of the Constitution requires the annual financial statement to be laid before Parliament?

- (A) Article 110
- (B) Article 112
- (C) Article 114
- (D) Article 280

Q2.

The Budget Division that prepares the Union Budget belongs to which department?

- (A) Department of Revenue
- (B) Department of Expenditure
- (C) Department of Financial Services
- (D) Department of Economic Affairs

Q3.

In which year was the Railway Budget merged with the Union Budget?

- (A) 2014
- (B) 2019
- (C) 2017
- (D) 2020

Q4.

Match List I with List II:

List I	List II
I. Money/Finance Bill involving taxation	A. Presented separately for 92 years
II. Rajya Sabha	B. Introduced only in Lok Sabha
III. Railway Budget	C. Presented by R.K. Shanmukham Chetty
IV. First post-independence Union Budget	D. Must return a Money/Finance Bill within 14 days

Rows are two lists side by side, not matched pairs; work out the correct pairing.

- (A) I-D, II-C, III-B, IV-A
- (B) I-D, II-A, III-C, IV-B
- (C) I-D, II-B, III-A, IV-C
- (D) I-B, II-D, III-A, IV-C

Q5.

Consider the following statements:

- I. The Budget Division works with NITI Aayog and ministries in preparing the budget.
- II. Rajya Sabha has the power to vote on demands for grants.
- III. The budget announcement has been made on the first working day of February since 2017.

Which of the above statements is/are correct?

- (A) I and II only
- (B) II and III only
- (C) I and III only
- (D) I, II and III

Q6.

How many of the following statements about the Union Budget are correct?

- I. India's first budget was presented on 7 April 1860.
- II. Part A of the Budget Speech deals with a general economic survey.
- III. Part B of the Budget Speech relates to the general economic survey.
- IV. Money bills can be introduced in Rajya Sabha.

- (A) Only two
- (B) Only one
- (C) Only three
- (D) All of the above

Q7.

Assertion (A): Money/Finance Bills involving taxation are introduced only in Lok Sabha.

Reason (R): Rajya Sabha must return a Money/Finance Bill within 14 days.

- (A) Both A and R are true but R is not the correct explanation of A
- (B) Both A and R are true and R is the correct explanation of A
- (C) A is true but R is false
- (D) A is false but R is true

Grants, Cess and Surcharge

The Constitution provides for grants-in-aid from central resources to the States, so the Union can support State finances beyond the sharing of tax revenue. Grants of this kind come in two broad types, and the two types differ in how they are made and in the purposes they serve. Grants are an important part of the financial relationship between the Union and the States.

Some grants are given to States on the basis of the Finance Commission's recommendations, and they are meant for States that need financial help. Others are made by the Centre for purposes it chooses, and these may be given for any public purpose.

Apart from grants, the Centre also collects levies such as the cess and the surcharge. A cess is a levy imposed for a specific purpose, and a surcharge is an extra amount added to the base tax of some taxpayers. The Centre also runs a scheme that provides long-term loans to States.

The booklet treats grants and levies as separate parts of the same financial relationship between the Union and the States. Each part has its own rules, and each affects the amount of money that States finally have at their disposal. Levies such as the cess and surcharge are part of the Centre's own revenue.

Q1.

Assertion (A): A cess is part of the divisible pool and is shared with the States.

Reason (R): Cesses are excluded from the divisible pool and are not shared with State Governments.

- (A) Both A and R are true and R is the correct explanation of A
- (B) Both A and R are true but R is not the correct explanation of A
- (C) A is true but R is false
- (D) A is false but R is true

Q2.

Which levy is not shared with State Governments and is at the exclusive disposal of the Union Government?

- (A) Statutory grants
- (B) Discretionary grants
- (C) SASCI loans
- (D) Surcharge

Q3.

Under which kind of grant does the Centre have no obligation to make payments?

- (A) Statutory grants
- (B) Cess collections
- (C) Discretionary grants
- (D) Surcharge collections

Q4.

Consider the following statements about grants and levies:

- I. Statutory grants under Article 275 are given to every State in the country.
- II. Cess is mandatory for all taxpayers, including individuals, companies and firms.
- III. The Centre is under an obligation to give discretionary grants under Article 282.

Which of the above statements is/are correct?

- (A) I and II only
- (B) II only
- (C) II and III only
- (D) I and III only

Q5.

Match List I with List II:

List I	List II
I. Surcharge	A. Statutory grants to States in need
II. SASCI	B. Discretionary grants for any public purpose
III. Article 282	C. Additional tax on high-income earners
IV. Article 275	D. Long-term interest-free loans for capital projects

Rows are two lists side by side, not matched pairs; work out the correct pairing.

- (A) I-C, II-A, III-D, IV-B
- (B) I-C, II-A, III-B, IV-D
- (C) I-C, II-D, III-B, IV-A
- (D) I-A, II-C, III-B, IV-D

Q6.

How many of the following statements about grants and levies are correct?

- I. The surcharge is shared with State Governments through the divisible pool.
- II. SASCI provides long-term, interest-free loans to State Governments.
- III. Discretionary grants are charged on the Consolidated Fund of India every year.

- (A) Only one
- (B) Only two
- (C) Only three
- (D) All of the above

Q7.

Which type of grant is charged on the Consolidated Fund of India every year?

- (A) Discretionary grants
- (B) Statutory grants
- (C) Cess collections
- (D) Surcharge collections

Impact, Concerns and the Commissions

Finance Commissions have been a regular feature of India's fiscal federalism since 1951, and each one makes recommendations on how tax revenue is shared between the Centre and the States. The sharing takes place through a divisible pool, and the share given to States from that pool is among the most debated figures in public finance.

The debate has several strands. Some have argued that the share is too low for States' needs, and that States have sought a higher share. Others focus on the formula that splits the States' share among the States, since the weights given to different criteria change the amount each State receives.

The concerns about the formula relate to income, demography and economic performance, and to the effect of those factors on particular regions. Some States point to the features that make them distinct, while others want the formula to reward performance more directly.

The discussion also draws on the earlier Commissions, which were appointed in different years and chaired by different persons, so the record of Finance Commissions forms a long series. In each case the report is a formal recommendation to the Government and is placed before Parliament. This makes each report a formal part of the record of Finance Commissions.

Q1.

What percentage share of the divisible pool did States demand, which the 16th Finance Commission report did not adopt?

- (A) 41%
- (B) 45%
- (C) 50%
- (D) 55%

Q2.

Consider the following statements about the Finance Commissions:

- I. Retaining the 41 per cent share is said to give States revenue predictability.
- II. Cesses and surcharges lie outside the divisible pool, which reduces untied fiscal space for States.
- III. The Eighth Finance Commission was chaired by K.C. Neogy.

Which of the above statements is/are correct?

- (A) II and III only
- (B) I and III only
- (C) I and II only
- (D) I, II and III

Q3.

Match List I with List II:

List I	List II
I. First Finance Commission (1951)	A. N.K. Singh
II. Second Finance Commission (1956)	B. K.C. Neogy
III. Eighth Finance Commission (1982)	C. K. Santhanam
IV. Fifteenth Finance Commission (2017)	D. Y.B. Chavan

Rows are two lists side by side, not matched pairs; work out the correct pairing.

- (A) I-D, II-B, III-A, IV-C
- (B) I-C, II-B, III-D, IV-A
- (C) I-C, II-D, III-A, IV-B
- (D) I-B, II-C, III-D, IV-A

Q4.

How many of the following statements are correct?

- I. The revised horizontal formula is said to safeguard fiscally weaker States.
- II. Finance Commissions have been appointed since 1987.
- III. The report keeps the States' share at 41 per cent.

- (A) Only one
- (B) Only two
- (C) Only three
- (D) All of the above

Q5.

The concern called 'Ageing Before Prosperity' has been raised particularly for which group of States?

- (A) Hill States
- (B) North-Eastern States
- (C) Special-category States
- (D) Southern States

Q6.

Assertion (A): Discontinuing revenue-deficit grants could adversely affect Hill and Special-category States.

Reason (R): Hill and Special-category States face structural and geographic fiscal disadvantages.

- (A) Both A and R are true and R is the correct explanation of A
- (B) Both A and R are true but R is not the correct explanation of A
- (C) A is true but R is false
- (D) A is false but R is true

CPI Measures and Their Significance

Inflation is an increase in the overall prices of goods and services in an economy over time. Indices are used to measure it, and the Consumer Price Index is one of the most important of them. The index measures the average change over time in the retail prices of goods and services consumed by households, so it follows the prices that ordinary families face in daily life. It also serves as a reference point for comparing prices across different periods. Economic indicators such as GDP and the Index of Industrial Production can be read against this benchmark to observe real changes over time. Every index is built on a base year, which is the reference point against which later prices are compared. Each item in the basket carries a weight that reflects its share of household spending. Over the years, however, the spending of households may drift away from the pattern recorded in that base. When this happens, an index that is not revised risks misrepresenting the actual price rise experienced by households. For this reason, the base of the index needs to be revised from time to time so that its coverage keeps pace with the present shape of consumer demand.

Q1.

Which range is the band around the current inflation target?

- (A) 1% to 5%
- (B) 3% to 7%
- (C) 2% to 6%
- (D) 4% to 8%

Q2.

In January 2026, which area recorded higher year-on-year inflation?

- (A) Rural areas at 2.73%
- (B) Urban areas at 2.77%
- (C) Both recorded identical inflation
- (D) Neither recorded inflation

Q3.

The Consumer Price Index is described as the main indicator of which kind of inflation?

- (A) Wholesale inflation
- (B) Export inflation
- (C) Core inflation
- (D) Retail inflation

Q4.

Assertion (A): The CPI base year was revised to reflect updated consumption patterns and price structures.

Reason (R): Consumption patterns in India have shifted since 2012 toward urbanisation, services expansion and digitalisation of consumer spending.

- (A) Both A and R are true and R is the correct explanation of A
- (B) Both A and R are true but R is not the correct explanation of A
- (C) A is true but R is false
- (D) A is false but R is true

Q5.

Which of the following is listed as a significance of the CPI base revision?

- (A) Lower number of items in the basket
- (B) Replacement of CPI by WPI
- (C) Greater statistical credibility
- (D) Fixed base year for all time

Q6.

Consider the following statements about the CPI:

- I. CPI reflects the cost of living experienced by consumers.
- II. CPI is used by the Reserve Bank of India for monetary policy decisions.
- III. CPI covers only goods and excludes services.

Which of the above statements is/are correct?

- (A) I and II only
- (B) I and III only
- (C) II and III only
- (D) I, II and III

Q7.

Consider the following statements about the CPI:

- I. CPI is used for pension adjustment.
- II. CPI is used for wage revision.
- III. The current inflation target is 6%.

How many of the above statements are correct?

- (A) Only one
- (B) Only three
- (C) All of the above
- (D) Only two

CPI and WPI Compared

Prices in India are tracked through more than one index, and each index serves a particular purpose. Inflation is an increase in the overall prices in an economy over time, and indices are the standard tool used to measure it. One index measures inflation in the retail market, where households buy items for their own consumption. A second index, the Wholesale Price Index, measures average changes in wholesale prices. The Consumer Price Index reflects the cost of living experienced by consumers. The two indices differ in several respects, so they should not be treated as interchangeable. Each index is linked to a base year, which serves as the reference point for all later comparisons. The coverage of each index is set by the items it includes, and the methods used to build them are not the same. Because the economy changes over time, the structure of each index has to be revised periodically. Economic indicators such as GDP can be compared with these indices over time to observe real changes. Careful reading of the figures helps users understand which measure suits a particular question, whether the focus is household budgets or broader movements in wholesale prices. Index numbers show how prices have moved relative to the base year.

Q1.

Which agency releases the Consumer Price Index?

- (A) Office of Economic Adviser
- (B) Ministry of Labour and Employment
- (C) National Statistical Office
- (D) Reserve Bank of India

Q2.

What is the base year of the Wholesale Price Index?

- (A) 2004-05
- (B) 2011-12
- (C) 2012
- (D) 2022-23

Q3.

Which index does NOT reflect up-to-date expenditure patterns?

- (A) Consumer Price Index
- (B) Both indices
- (C) Neither index
- (D) Wholesale Price Index

Q4.

Assertion (A): The Consumer Price Index includes both goods and services.

Reason (R): The Wholesale Price Index includes only goods.

- (A) Both A and R are true; R explains A
- (B) Both A and R are true; R does not explain A
- (C) A is true but R is false
- (D) A is false but R is true

Q5.

Which ministry's Office of Economic Adviser releases the Wholesale Price Index?

- (A) Ministry of Commerce and Industry
- (B) Ministry of Finance
- (C) Ministry of Labour and Employment
- (D) Ministry of Statistics and Programme Implementation

Q6.

Consider the following statements:

- I. The CPI includes indirect taxes.
- II. The WPI excludes indirect taxes.
- III. The WPI covers services.

Which of the above statements is/are correct?

- (A) II and III only
- (B) I only
- (C) I and II only
- (D) I, II and III

Q7.

Consider the following statements:

- I. The CPI reflects up-to-date expenditure patterns.
- II. The WPI base year is 2011-12.
- III. The CPI base year is 2011-12.

How many of the above statements are correct?

- (A) Only two
- (B) Only one
- (C) Only three
- (D) All of the above

Summit Theme and Objectives: MCQ practice

India hosted a major AI gathering in 2026, and the event was presented as a turning point in how the technology is approached. Earlier global discussions on AI were described as following a Western safety-first model, which placed the management of risk ahead of other concerns. The summit signalled a different direction, an impact-first developmental paradigm in which AI is judged by the outcomes it produces for people. Under this approach, attention is directed to priority cooperation areas such as healthcare and agriculture, where AI can be put to practical use.

The gathering was planned around a guiding message of collective welfare and was organised around a set of guiding principles that shape how its work is framed. Its discussions were meant to move beyond broad global conversations and towards practical, scalable applications. Several objectives were set for the event, and these were meant to guide its outcomes. Participants were also expected to consider India's role in the field.

Beyond the summit itself, the event was placed within a longer series of international meetings on AI. Earlier summits had addressed the promises and risks of the technology, and their discussions often returned to questions of human intent, safety and accountability. The India gathering was presented as a continuation of that conversation, with a stronger emphasis on development and on the needs of countries in the Global South.

Q1.

Where was the India AI Impact Summit 2026 held?

- (A) India Habitat Centre, New Delhi
- (B) Vigyan Bhawan, New Delhi
- (C) Bharat Mandapam, New Delhi
- (D) Pragati Maidan, New Delhi

Q2.

Which city will host the 2027 World Summit on Artificial Intelligence?

- (A) Paris
- (B) Geneva
- (C) Seoul
- (D) London

Q3.

Assertion (A): The India AI Impact Summit 2026 set out four key objectives.

Reason (R): One of its objectives is to promote responsible and ethical AI, addressing algorithmic bias, privacy protection and accountability.

- (A) Both A and R are true and R is the correct explanation of A
- (B) Both A and R are true but R is not the correct explanation of A
- (C) A is true but R is false
- (D) A is false but R is true

Q4.

How many Chakras (Priority Cooperation Areas) were identified for the summit?

- (A) 5
- (B) 6
- (C) 7
- (D) 8

Q5.

Read the following statements about the summit:

- I. The summit was described as the first multilateral AI summit in the Global South.
- II. Its theme was 'Sarvajana Hitaya, Sarvajana Sukhaya'.
- III. It was the first multilateral AI summit held in Europe.

Which of the above statements is/are correct?

- (A) I and II only
- (B) II and III only
- (C) I and III only
- (D) I, II and III

Q6.

How many of the following statements about the summit are correct?

- I. The summit set out four key objectives.
- II. One of its objectives addresses algorithmic bias and privacy protection.
- III. The 'Planet' Sutra stands for Ethical Innovation.
- IV. Switzerland will host the 2027 World Summit on AI in Paris.

- (A) Only one
- (B) Only two
- (C) Only three
- (D) All of the above

Q7.

Which of the summit's objectives involves cooperation between governments, startups, academia and industry?

- (A) Translating global AI discussions into development outcomes
- (B) Promoting responsible and ethical AI
- (C) Positioning India as a Global AI Hub
- (D) Building partnerships between governments, startups, academia and industry

Previous Summits and M.A.N.A.V.: MCQ practice

The framework that India presented at its 2026 AI summit was described as human-centric and aimed at ethical and inclusive artificial intelligence. Its principles were arranged so that each letter of the framework's name stands for one idea. The principles were presented together as a single design. The framework reflects concerns that have appeared in earlier international meetings on the subject, where the balance between innovation and safety has been a recurring theme. The framework was unveiled by the Prime Minister during the summit.

Earlier summits form part of the background to this work. A series of such meetings has been held in different countries, and the first of them was focused on risks from advanced systems. Later gatherings followed in other years and places. Taken as a whole, the series of meetings shows how the subject has been discussed over several years.

The principles in the framework touch on several themes, including the need for systems to be fair and transparent, the importance of clear responsibility in governance, and the value of strengthening domestic capacity. They also address the spread of false content online. Taken

together, these ideas show how the framework tries to connect technology with public purpose. These themes are presented as part of a human-centric approach.

Q1.

Which country hosted the 1st AI Safety Summit, where the Bletchley Declaration was adopted?

- (A) Republic of Korea
- (B) France
- (C) United Kingdom
- (D) Switzerland

Q2.

In which year was the 3rd AI Action Summit held?

- (A) 2023
- (B) 2024
- (C) 2026
- (D) 2025

Q3.

Assertion (A): The 'V' principle of the M.A.N.A.V. framework requires AI systems to ensure trust, safety and legal compliance.

Reason (R): Sovereign AI refers to a nation's autonomous capability to develop, control and deploy its own AI technologies.

- (A) Both A and R are true and R is the correct explanation of A
- (B) Both A and R are true but R is not the correct explanation of A
- (C) A is true but R is false
- (D) A is false but R is true

Q4.

Which principle of the M.A.N.A.V. framework aims to bridge the digital divide and reach marginalised populations?

- (A) Moral and Ethical Systems
- (B) National Sovereignty
- (C) Accessible and Inclusive AI
- (D) Accountable Governance

Q5.

Read the following statements about the M.A.N.A.V. framework:

- I. The 'M' principle stands for Moral and Ethical Systems, requiring AI to be fair and transparent.
- II. The 'N' principle stands for National Sovereignty and includes securing critical datasets.
- III. The 'M' principle requires AI to operate without any human oversight.

Which of the above statements is/are correct?

- (A) I and II only
- (B) II and III only
- (C) I and III only
- (D) I, II and III

Q6.

How many of the following statements about earlier and current AI summits are correct?

- I. The M.A.N.A.V. framework was unveiled by the Prime Minister at the summit.
- II. The AI Seoul Summit took place in 2024.
- III. The AI Seoul Summit was hosted solely by France.

- (A) Only one
- (B) Only two
- (C) Only three
- (D) All of the above

Q7.

Match List I with List II:

List I	List II
I. Bletchley Declaration	A. Co-hosted by the Republic of Korea and the UK government
II. AI Seoul Summit	B. Trust, safety and legal compliance
III. 3rd AI Action Summit	C. Aligning AI with human intent, safeguarding rights
IV. 'V' of M.A.N.A.V.	D. Held in Paris, France

Rows are two lists side by side, not matched pairs; work out the correct pairing.

- (A) I-B, II-C, III-A, IV-D
- (B) I-A, II-B, III-D, IV-C
- (C) I-C, II-B, III-D, IV-A
- (D) I-C, II-A, III-D, IV-B

Sovereign Models and Platforms: MCQ practice

India's push for sovereign artificial intelligence has produced a range of models and platforms, some built for general language tasks and others for specific sectors. The idea behind sovereign AI is that a country should be able to develop, control and deploy its own AI technologies. Several domestic firms and research bodies are working on such models, and their work has been presented as part of the national effort.

Language is a central concern in this work. Indian languages are numerous, and systems that handle them require careful development. Some of the national efforts focus on translation and speech, so that people can use digital services in their own languages. Others concentrate on text generation, aiming to produce fluent output that reads naturally to users. Such work must also reflect the cultural contexts of different communities.

Health is another major area. Platforms in this field are intended to test AI systems on real-world data while protecting privacy. Some of them are linked to government health missions that aim to help their use spread across the country.

Biotechnology is also part of the picture. Policies that connect AI with life sciences aim to bring computer models and laboratory work closer together. Such efforts are presented as a way to link research with national priorities.

Q1.

What does the word 'Mulankur', used in the Bio-AI Mulankur Hubs, mean in Sanskrit?

- (A) Seed or foundation
- (B) Knowledge or wisdom
- (C) Network or bridge
- (D) Language or voice

Q2.

Which company developed the Vachana text-to-speech model?

- (A) Sarvam AI
- (B) BharatGen
- (C) Digital India BHASHINI Division
- (D) Gnani.ai

Q3.

Assertion (A): Sarvam-30B and Sarvam-105B are large language models capable of generating human-like text.

Reason (R): Vikram is a multilingual chatbot that enables seamless conversations across Indian languages.

- (A) Both A and R are true and R is the correct explanation of A
- (B) Both A and R are true but R is not the correct explanation of A
- (C) A is true but R is false
- (D) A is false but R is true

Q4.

Which institute developed the BODH platform in collaboration with the National Health Authority?

- (A) C-DAC Pune
- (B) Sarvam AI
- (C) IIT Kanpur
- (D) IIT Madras

Q5.

How many of the following statements about India's platforms are correct?

- I. BHASHINI is an AI-powered national language translation and speech platform.
 - II. The Bio-AI Mulankur Hubs aim to have laboratory experiments validate AI predictions in real time.
 - III. Sarvam's Vikram is a text-to-speech model.
- (A) Only one
 - (B) Only two
 - (C) Only three
 - (D) All of the above

Q6.

Match List I with List II:

List I	List II
I. BODH	A. Integrates AI with biotechnology under the BioE3 policy
II. SAHI	B. Open-source, end-to-end voice AI stack
III. VoicERA	C. National framework for responsible AI integration in healthcare
IV. Bio-AI Mulankur Hubs	D. Privacy-preserving benchmarking platform for health AI

Rows are two lists side by side, not matched pairs; work out the correct pairing.

- (A) I-D, II-C, III-B, IV-A
- (B) I-B, II-D, III-A, IV-C
- (C) I-C, II-A, III-D, IV-B
- (D) I-D, II-A, III-B, IV-C

Q7.

Consider the following statements about India's sovereign AI models and platforms:

- I. Vachana is a text-to-speech model that supports 12 Indian languages.
- II. Param2 17B is a multilingual foundational AI model developed by Sarvam AI.
- III. VoicERA was developed by the Digital India BHASHINI Division.

Which of the above statements is/are correct?

- (A) I and III only
- (B) II and III only
- (C) I and II only
- (D) I, II and III

India's position in the CPI 2025

The Corruption Perceptions Index is released by Transparency International, a non-profit organisation whose aim is to combat global corruption through civil society anti-corruption measures. The index assesses public sector corruption and is described as a leading global indicator of that problem. It highlights global trends and structural causes, and it recommends measures to strengthen institutional integrity. The latest edition reports that the global average score has declined to its lowest level in over a decade, which indicates worsening corruption trends worldwide. Only a small number of countries now score above 80, compared with a larger number a decade ago. Many countries still fall in the serious-concern range, with most nations scoring below 50. India's position in the latest edition is of particular interest to readers in the country. Its performance is assessed against the global average, and the booklet compares it with several South Asian neighbours. The comparison shows that India performs better than some countries in its region, while it lags behind others. The booklet concludes that these results point to scope for institutional strengthening.

Q1.

What is the global average CPI score in 2025?

- (A) 38
- (B) 42
- (C) 39
- (D) 44

Q2.

On the CPI scale, what does a score of 0 signify?

- (A) Very clean
- (B) Average integrity
- (C) Highly corrupt
- (D) Moderately corrupt

Q3.

How many countries were assessed in CPI 2025?

- (A) 172
- (B) 182
- (C) 192
- (D) 162

Q4.

Assertion (A): India performs better than China in the Corruption Perceptions Index 2025.

Reason (R): The booklet states that India lags behind China in the index.

- (A) Both A and R are true and R is the correct explanation of A
- (B) Both A and R are true but R is not the correct explanation of A
- (C) A is true but R is false
- (D) A is false but R is true

Q5.

Consider the following statements about India in CPI 2025:

- I. India performs better than Sri Lanka.
- II. India lags behind Bhutan.
- III. India's score is above the global average.

Which of the above statements is/are correct?

- (A) I and II only
- (B) II and III only
- (C) I and III only
- (D) I, II and III

Q6.

How many of the following statements about India in CPI 2025 are correct?

- I. India's score is 39 out of 100.
 - II. India lags behind China.
 - III. India was ranked 96th in CPI 2025.
- (A) Only one
 - (B) Only two
 - (C) Only three
 - (D) All of the above

Q7.

Which of the following countries does India perform better than in CPI 2025?

- (A) Bhutan
- (B) China
- (C) Finland
- (D) Bangladesh

Bodies and instruments against corruption

Several international bodies and instruments deal with corruption, and the booklet describes some of the most significant ones. The United Nations Convention against Corruption, dated 2003, is an instrument that addresses corruption across the world. Within the G20, an anti-corruption working group, dating from 2010, is one of the bodies the booklet lists. The Financial Action Task Force, which acts as a global watchdog on money laundering and terrorist financing, is a body whose membership includes 38 countries and two organisations, among them the Gulf Cooperation Council and the European Union. The task force maintains lists of countries whose cooperation with it is considered weak, and these include a grey list with 21 countries and a second list with a different label. The Sustainable Development Goals also include a goal titled Peace, Justice and Strong Institutions. The booklet presents these bodies together, covering an international convention, a working group, a financial watchdog and a development framework, as part of the wider effort against corruption. Each entry in the booklet's summary gives a short description of the body or instrument concerned.

Q1.

Which country officially became a full member of the Financial Action Task Force, according to the booklet?

- (A) Indonesia
- (B) Nepal
- (C) Myanmar
- (D) Yemen

Q2.

Which of these countries is labelled on the FATF Black List as a Non-Cooperative Country or Territory?

- (A) Denmark
- (B) Bhutan
- (C) North Korea
- (D) Finland

Q3.

What is the stated purpose of the G20 Anti-Corruption Working Group, according to the booklet?

- (A) Set binding targets for national budgets
- (B) Investigate cross-border crime in real time
- (C) Maintain a list of non-cooperative territories
- (D) Share effective strategies to combat corruption, especially through emerging technologies

Q4.

Assertion (A): The UN Convention against Corruption 2003 is the only legally binding universal anti-corruption instrument.

Reason (R): India ratified this convention in 2011.

- (A) Both A and R are true and R is the correct explanation of A
- (B) Both A and R are true but R is not the correct explanation of A
- (C) A is true but R is false
- (D) A is false but R is true

Q5.

Consider the following statements about international anti-corruption bodies:

- I. The FATF was established in 1989 by the G7.
- II. The G20 Anti-Corruption Working Group dates from 1989.
- III. Indonesia officially became a full member of the FATF.

Which of the above statements is/are correct?

- (A) I and II only
- (B) II and III only
- (C) I and III only
- (D) I, II and III

Q6.

How many of the following statements are correct?

- I. India ratified the UN Convention against Corruption in 2011.
- II. The Sustainable Development Goal titled Peace, Justice and Strong Institutions is SDG 16.
- III. Indonesia is listed on the FATF Black List.

- (A) Only one
- (B) Only two
- (C) Only three
- (D) All of the above

Q7.

Match List I with List II:

List I	List II
I. Financial Action Task Force	A. Anti-corruption as an institutional principle
II. FATF Black List	B. Established by the G7
III. Sustainable Development Goal titled Peace, Justice and Strong Institutions	C. Only legally binding universal anti-corruption instrument
IV. UN Convention against Corruption	D. Non-cooperative countries or territories

Rows are two lists side by side, not matched pairs; work out the correct pairing.

- (A) I-A, II-D, III-B, IV-C
- (B) I-A, II-C, III-D, IV-B
- (C) I-B, II-D, III-A, IV-C
- (D) I-D, II-C, III-B, IV-A

PVTGs and PM-JANMAN: Practice Quiz

Great Nicobar Island is the southernmost island of India and also the largest of the Nicobar Islands. Most of the island is covered by tropical rainforest, and its coastal areas include Galathea Bay and Campbell Bay. Several indigenous communities live on the island, including the Shompen, the Nicobarese, the Andamanese and the Onge. The island is home to the Great Nicobar Biosphere Reserve, and Indira Point marks the southernmost point of India. The Great Nicobar Mega Infrastructure Project proposes an international container transshipment terminal, a gas and solar based power plant, a dual-use civil-military airport and an integrated township. The island is strategically placed near the Malacca Strait, which is one reason the project is described as

important for India's Act East Policy. The project has raised concerns about its effects on the island. Among the communities named in these concerns are the Shompen and the Nicobarese. The concerns include loss of habitat, cultural disruption and the impact on livelihoods. The island also lies in the highest seismic risk zone, which makes it vulnerable to earthquakes, tsunamis and climate change. The National Green Tribunal, which upheld the environmental clearance for the project, noted that the project complied with the Island Coastal Regulation Zone and Coastal Regulation Zone norms. The project is being implemented by the Andaman and Nicobar Islands Integrated Development Corporation.

Q1.

Consider the following statements about the salient features of PVTGs:

- I. Technological backwardness is one of their salient features.
- II. Their population growth is described as steadily increasing.
- III. Low literacy levels are among their salient features.

Which of the above statements is/are correct?

- (A) I only
- (B) II and III only
- (C) I and III only
- (D) I, II and III

Q2.

Match List I with List II:

List I	List II
I. Former name of PVTGs	A. Dhebar Commission
II. Larger category of which PVTG is a sub-classification	B. Holistic development of PVTGs
III. Aim of PM-JANMAN	C. Primitive Tribal Groups
IV. Commission that set up the PTG category in 1973	D. Scheduled Tribe

Rows are two lists side by side, not matched pairs; work out the correct pairing.

- (A) I-B, II-D, III-A, IV-C
- (B) I-A, II-B, III-C, IV-D
- (C) I-C, II-D, III-B, IV-A
- (D) I-B, II-C, III-D, IV-A

Q3.

How many of the following statements are correct?

- I. A PVTG is considered more vulnerable than a regular Scheduled Tribe.
- II. PM-JANMAN has an outlay of Rs. 2,400 crore.
- III. PM-JANMAN covers health and nutrition.

- (A) Only two
- (B) Only one
- (C) Only three
- (D) All of the above

Q4.

Assertion (A): Particularly Vulnerable Tribal Groups are considered to have a subsistence economy.

Reason (R): They face challenging living conditions.

- (A) Both A and R are true and R is the correct explanation of A
- (B) Both A and R are true but R is not the correct explanation of A
- (C) A is true but R is false
- (D) A is false but R is true

Q5.

Which body has identified the Particularly Vulnerable Tribal Groups?

- (A) National Green Tribunal
- (B) NITI Aayog
- (C) Ministry of Tribal Affairs
- (D) Andaman and Nicobar Islands Integrated Development Corporation

Q6.

Which of the following is NOT listed among the facilities that PM-JANMAN aims to provide to PVTG families?

- (A) Safe housing
- (B) Clean drinking water and sanitation
- (C) Road and telecom connectivity
- (D) 450 MVA gas and solar-based power plant

National Green Tribunal: Practice Quiz

The National Green Tribunal is a specialised tribunal that hears environmental disputes in India. Its work includes giving relief and compensation for environmental damage, and its approach is based on sustainable development. The Tribunal has regional benches in cities such as Bhopal, Pune and Chennai, and it is headed by a Chairperson along with judicial members. Environmental disputes can involve pollution, forests and water. The Tribunal provides a dedicated forum for such matters. In a recent decision, the Tribunal upheld the environmental clearance granted to the Great Nicobar Mega Infrastructure Project. It found that the project complied with the Island Coastal Regulation Zone and Coastal Regulation Zone norms. The project includes an international container transshipment terminal, a gas and solar based power plant, a dual-use civil-military airport and an integrated township. It is intended to reduce India's reliance on the ports of Singapore and Colombo. The project has also raised environmental concerns, including the diversion of tropical rainforest and the loss of a large number of trees. The island also lies in the highest seismic risk zone, so it is vulnerable to earthquakes, tsunamis and climate change. The island is home to the Great Nicobar Biosphere Reserve. Indira Point marks the southernmost point of India.

Q1.

Which of the following Acts is excluded from the civil jurisdiction of the National Green Tribunal?

- (A) Biological Diversity Act 2002
- (B) Forest Rights Act 2006
- (C) Public Liability Insurance Act 1991
- (D) Air (Prevention and Control of Pollution) Act 1981

Q2.

The Tribunal's work on relief and compensation for environmental damage is linked to which principle?

- (A) Doctrine of res judicata
- (B) Polluter pays principle
- (C) Rule of lenity
- (D) Principle of double jeopardy

Q3.

After which two countries did India become the third country to set up a specialised environmental tribunal?

- (A) Australia and Japan
- (B) New Zealand and Brazil
- (C) Japan and Brazil
- (D) Australia and New Zealand

Q4.

Assertion (A): Appeals against the Tribunal's decisions lie with the High Court within 90 days.

Reason (R): Appeals against the Tribunal's decisions can be filed in the Supreme Court within 90 days.

- (A) Both A and R are true and R is the correct explanation of A
- (B) Both A and R are true but R is not the correct explanation of A
- (C) A is true but R is false
- (D) A is false but R is true

Q5.

Match List I with List II:

List I	List II
I. National Green Tribunal Act	A. Enacted in 1972
II. Appeals to the Supreme Court must be filed within	B. 6 months
III. Appeals must be disposed of within	C. 90 days
IV. Wildlife Protection Act	D. Enacted in 2010

Rows are two lists side by side, not matched pairs; work out the correct pairing.

- (A) I-D, II-A, III-C, IV-B
- (B) I-D, II-C, III-B, IV-A
- (C) I-B, II-C, III-D, IV-A
- (D) I-C, II-B, III-A, IV-D

Q6.

How many of the following statements about the National Green Tribunal are correct?

- I. It hears civil cases under seven laws.
 - II. Appeals against its decisions go to the High Court.
 - III. Its decisions can be executed as a decree of a civil court.
- (A) Only one
 - (B) Only three
 - (C) Only two
 - (D) All of the above

World Wetlands Day 2026: MCQ

World Wetlands Day draws attention to wetlands, which are places where land is covered by water. The day commemorates the Convention on Wetlands of International Importance, widely known as the Ramsar Convention, which was signed in 1971. The Convention has member states from across the world, and India is one of its signatories. India's wetlands are part of a group known as the Ramsar Network, and this network has been in the news. The Ramsar Network refers to India's wetlands that are recognised under the Convention. The day therefore connects a global treaty with sites inside India. Two wetlands in different states are also in the news. The Patna Bird Sanctuary is located in Uttar Pradesh and is a bird sanctuary of that state. The Chhari-Dhand Wetland Reserve is located in Gujarat and is known for a mysterious local phenomenon. Together, these two places show that wetlands in India range from bird habitats to reserves. Both sites are wetlands that have drawn attention for distinct reasons. The observance therefore gives attention to wetlands in general, as well as to specific sites that are being highlighted this year. The topic thus has three parts: the day itself, the Convention, and the sites in the news. The booklet presents this news in its Why in News section, which is the opening part of the topic.

Q1.

In which year was the Patna Bird Sanctuary established?

- (A) 1971
- (B) 1975
- (C) 1991
- (D) 1982

Q2.

What is the designated theme for World Wetlands Day in 2026?

- (A) Wetlands and Climate Change: A Natural Solution
- (B) Wetlands and Traditional Knowledge: Celebrating Cultural Heritage
- (C) Wetlands for a Sustainable Urban Future
- (D) Wetlands and Biodiversity: Life in the Water

Q3.

Chir Batti night lights are seen across which grassland?

- (A) Keoladeo Grasslands
- (B) Rann Grasslands
- (C) Nallamala Grasslands
- (D) Banni Grasslands

Q4.

Read the assertion and reason and choose the correct option.

Assertion (A): India became a signatory to the Ramsar Convention on 1 February 1982.

Reason (R): The Convention came into force in 1975.

- (A) Both A and R are true but R is not the correct explanation of A
- (B) A is false but R is true
- (C) Both A and R are true and R is the correct explanation of A
- (D) A is true but R is false

Q5.

Match List I with List II:

List I	List II
I. Patna Bird Sanctuary	A. Iran
II. Chhari-Dhand Wetland Reserve	B. 2 February
III. Signing place of the Ramsar Convention	C. Rann of Kutch
IV. World Wetlands Day	D. Etah District

Rows are two lists side by side, not matched pairs; work out the correct pairing.

- (A) I-B, II-A, III-C, IV-D
- (B) I-A, II-B, III-D, IV-C
- (C) I-A, II-D, III-C, IV-B
- (D) I-D, II-C, III-A, IV-B

Q6.

Consider the following statements:

- I. The Convention is the only international treaty that addresses a specific ecosystem.
- II. The Patna Bird Sanctuary is the largest bird sanctuary in its state.
- III. The Convention was signed in 1975.

Which of the above statements is/are correct?

- (A) II and III only
- (B) I and II only
- (C) I only
- (D) I, II and III

Q7.

How many of the following statements are correct?

1. The Union Environment Minister added new wetlands to India's Ramsar Network.
 2. The Patna Bird Sanctuary is located in Rajasthan.
 3. World Wetlands Day is observed on 2 March.
- (A) Only one
(B) Only two
(C) Only three
(D) All of the above

Wetlands: Meaning and Classification MCQ

The February 2026 current affairs booklet, in its environment and biodiversity section, places its discussion of wetlands after the coverage of World Wetlands Day. The wetland section opens with a definition. According to the booklet, a wetland is a place in which land is covered by water. This definition is applied to a wide range of water bodies rather than to a single type of habitat. The booklet's examples include rivers, swamps and wet grasslands. Peatlands are also named, and so are mangroves. Each of these examples is treated as a kind of wetland under the definition. After the definition, the booklet turns to the way wetlands are arranged into groups for classification. The classification is presented as a separate step, so the section moves from a definition to a grouping. The Ramsar Convention coverage follows this part of the booklet, and that coverage is set out in its own section. Readers of the booklet will therefore find the definition, the examples, and the classification in one connected discussion, in that order. The definition in the booklet is short, and it uses the words land and water to describe the place. Each example in the list is named in the booklet and is not described further in the wetland section.

Q1.

How many segments are wetlands classified into?

- (A) Two
(B) Three
(C) Four
(D) Five

Q2.

Which of the following is NOT listed among the water bodies included in the wetland definition?

- (A) Peatlands
(B) Mangroves
(C) Rivers
(D) Glaciers

Q3.

Read the assertion and reason and choose the correct option.

Assertion (A): The water cover of a wetland may be seasonal or permanent.

Reason (R): All wetlands are covered by salt water.

- (A) Both A and R are true and R is the correct explanation of A
(B) Both A and R are true but R is not the correct explanation of A
(C) A is true but R is false
(D) A is false but R is true

Q4.

Which of the following is included in the wetland definition along with other coastal areas?

- (A) Coral reefs
(B) Glaciers
(C) Dunes
(D) Plateaus

Q5.

Consider the following statements:

- I. Wetlands may hold water that is salt, fresh or in between.
- II. Every wetland must have permanent water cover.
- III. Tidal flats are included in the wetland definition.

Which of the above statements is/are correct?

- (A) I and II only
- (B) II and III only
- (C) I and III only
- (D) I, II and III

Q6.

How many of the following statements are correct?

- 1. Lakes are included in the wetland definition.
 - 2. Mangroves are classified as a separate segment of wetlands.
 - 3. Deltas are included in the wetland definition.
- (A) Only one
 - (B) Only two
 - (C) Only three
 - (D) All of the above

Q7.

Which underground feature is included in the booklet's list of wetland water bodies?

- (A) Aquifers
- (B) Caves
- (C) Glaciers
- (D) Springs

India-France Partnership: MCQ practice

India and France have upgraded their ties to a special global strategic partnership during a visit by the French President. Cooperation between the two countries now spans defence manufacturing, technology, critical minerals, nuclear energy and trade. The economic side includes cooperation on the India-Middle East-Europe Economic Corridor, and the partnership also includes joint military exercises by the army, navy and air force. A final assembly line for a light utility helicopter has been inaugurated in India as part of a private aviation facility. A joint venture with a French firm will also produce a missile in India. Earth observation is another area of joint work, and the two countries have agreed to amend their double tax avoidance agreement. A large nuclear project is being built in India with a French utility. The roadmap sets the course for the bilateral relationship in all areas. France has been the Chief Guest at India's Republic Day celebrations more than once. Namaste France 2028 is planned as a celebration of the partnership, marking a milestone in its long history. The two sides have also agreed on a joint declaration about critical minerals. Each of these areas is covered in the joint outcomes announced during the visit.

Q1.

Which joint Earth observation mission is India collaborating on with France?

- (A) TRISHNA
- (B) Aditya-L1
- (C) Gaganyaan
- (D) Chandrayaan-3

Q2.

Namaste France 2028 is planned to celebrate how many years of the Strategic Partnership?

- (A) 10
- (B) 20
- (C) 30
- (D) 50

Q3.

Which summit is India set to attend in July 2026 in France?

- (A) G7 Summit
- (B) Africa Forward Summit
- (C) Critical Minerals Ministerial
- (D) International Space Summit

Q4.

Assertion (A): A joint venture with Dassault Aviation produces the HAMMER missile in India.

Reason (R): HAMMER is a smart precision guided air-to-ground weapon for Rafale and LCA Tejas.

- (A) Both A and R are true and R is the correct explanation of A
- (B) Both A and R are true but R is not the correct explanation of A
- (C) A is true but R is false
- (D) A is false but R is true

Q5.

Match List I with List II:

List I	List II
I. H125 helicopter final assembly line	A. Joint venture of Bharat Electronics and Safran
II. Jaitapur nuclear park	B. AIIMS, Delhi
III. Indo-French Centre for AI in Health	C. Karnataka (Vemagal)
IV. HAMMER missile production	D. Maharashtra

Rows are two lists side by side, not matched pairs; work out the correct pairing.

- (A) I-D, II-A, III-C, IV-B
- (B) I-C, II-D, III-B, IV-A
- (C) I-B, II-A, III-D, IV-C
- (D) I-C, II-B, III-A, IV-D

Q6.

Consider the following statements:

- I. The Indo-French Centre for Digital Sciences and Technology has been inaugurated.
- II. France has invited India's Prime Minister to attend the 2026 G7 summit in France.
- III. The joint declaration on critical minerals concerns supply chains of nuclear fuel.

Which of the above statements is/are correct?

- (A) II and III only
- (B) I and III only
- (C) I and II only
- (D) I, II and III

Q7.

Consider the following statements:

- I. Cooperation was deepened in small and advanced modular reactors.
- II. The India-France Year of Innovation is in 2027.
- III. An India-France Innovation Network has been established.

How many of the above statements are correct?

- (A) Only one
- (B) All of the above
- (C) Only two
- (D) Only three

Chabahar Port and Arab League: MCQ practice

Chabahar Port is located on the Makran Coast of Iran, close to the Gulf of Oman and the Strait of Hormuz. It is the Iranian port closest to India, and it offers a direct route to Afghanistan and Central Asia that avoids Pakistan. India has been involved with the port for a long time, and the port has been developed through agreements between the two countries. The Chabahar-Zahedan railway is planned to connect the port to Afghanistan's highway network. The Arab League is a regional organisation of Arab countries that coordinates policies on political, security, economic and legal issues. Its region is the Middle East and parts of Africa. The organisation stresses respect for the sovereignty and territorial integrity of all states and calls for cooperation against terrorism. The Arab League has also supported reforms of the United Nations Security Council to reflect contemporary global realities. India and the Arab League have adopted a joint declaration on peace, security and global governance. The Arab States supply a large share of India's crude oil imports, and many Indians live and work in Arab League countries. Stability in the region is considered vital for India's energy security and supply chains. Chabahar also offers India a counterbalance in the Arabian Sea.

Q1.

In which Iranian province is Chabahar Port located?

- (A) Khuzestan
- (B) Sistan-Baluchistan
- (C) Golestan
- (D) Kerman

Q2.

In which year did discussions on Indian participation in Chabahar Port begin?

- (A) 2002
- (B) 1998
- (C) 2005
- (D) 2010

Q3.

Chabahar is an integral part of which corridor?

- (A) China-Pakistan Economic Corridor
- (B) Bangladesh-China-India-Myanmar Corridor
- (C) Trans-Asian Highway
- (D) International North-South Transport Corridor

Q4.

Assertion (A): Iran reaffirmed its commitment to Chabahar Port despite US sanctions uncertainty.

Reason (R): India Ports Global assumed operational control of Chabahar Port in 2018.

- (A) Both A and R are true and R is the correct explanation of A
- (B) Both A and R are true but R is not the correct explanation of A
- (C) A is true but R is false
- (D) A is false but R is true

Q5.

Match List I with List II:

List I	List II
I. Arab League	A. Part of China-Pakistan Economic Corridor
II. Chabahar Port	B. Suez Canal-Red Sea Economic and Maritime Development Initiative
III. STREAM	C. Iran's only ocean-facing deep-water port
IV. Gwadar port	D. Established in 1945 in Cairo

Rows are two lists side by side, not matched pairs; work out the correct pairing.

- (A) I-C, II-A, III-B, IV-D
- (B) I-A, II-C, III-B, IV-D
- (C) I-D, II-C, III-B, IV-A
- (D) I-B, II-C, III-D, IV-A

Q6.

Consider the following statements:

- I. Chabahar Port lies about 550 nautical miles from Gujarat's Kandla Port.
- II. Formal recognition of Indian participation in Chabahar came in the 2002 New Delhi Declaration.
- III. The Arab League's headquarters is located in Cairo, Egypt.

Which of the above statements is/are correct?

- (A) I and II only
- (B) II and III only
- (C) I, II and III
- (D) I and III only

Q7.

Consider the following statements:

- I. The Arab League has highlighted STREAM as a key regional framework.
- II. Palestine is not counted among the members of the Arab League.
- III. India Ports Global assumed operational control of Chabahar Port in 2015.

How many of the above statements are correct?

- (A) Only two
- (B) Only three
- (C) Only one
- (D) All of the above

Malaysia and Seychelles Visits: MCQ practice

India's Prime Minister made an official visit to Malaysia, and the two countries issued a joint statement covering strategic, defence, digital and trade cooperation. The defence part of the statement focuses on maintenance, technical expertise and supply chain resilience. Both sides emphasised balanced and diversified bilateral trade, with priority given to semiconductors, the digital economy and advanced manufacturing. Malaysia has also reiterated its commitment to the UN Convention on the Law of the Sea and to freedom of navigation and overflight. Malaysia is an important partner for India within the ASEAN grouping, and the two countries are to co-chair an

expert working group of ASEAN defence ministers for 2024 to 2027. Malaysia has reiterated its role as a reliable supplier of palm oil to India. Malaysia and India also hold joint military exercises involving the army, navy and air force. Separately, the President of Seychelles visited India and announced a package of assistance. The focus areas of this support are development projects, capacity building and maritime security cooperation. Both the Malaysia and Seychelles visits stress disaster-resilient infrastructure, and the Seychelles visit also stresses maritime security.

Q1.

How much assistance package did India announce for Seychelles (in USD)?

- (A) USD 175 million
- (B) USD 75 million
- (C) USD 275 million
- (D) USD 500 million

Q2.

The SESEL joint vision marks how many years of diplomatic relations between India and Seychelles?

- (A) 25
- (B) 40
- (C) 75
- (D) 50

Q3.

Consider the following statements:

- I. The Malaysia-India Digital Council covers fintech, AI, cybersecurity and e-governance.
- II. The Su-30 Forum was created to enhance cooperation between the navies of India and Malaysia.
- III. Anwar Ibrahim is the Prime Minister of Malaysia.

How many of the above statements are correct?

- (A) Only one
- (B) Only three
- (C) All of the above
- (D) Only two

Q4.

Assertion (A): Seychelles agreed to join the Coalition for Disaster Resilient Infrastructure.

Reason (R): Malaysia formally acceded to the International Big Cat Alliance.

- (A) Both A and R are true and R is the correct explanation of A
- (B) Both A and R are true but R is not the correct explanation of A
- (C) A is true but R is false
- (D) A is false but R is true

Q5.

The Harimau Shakti joint military exercise with Malaysia is held in which edition?

- (A) 3rd
- (B) 7th
- (C) 5th
- (D) 10th

Q6.

Match List I with List II:

List I	List II
I. Harimau Shakti joint exercise	A. Regional security grouping of India, Maldives, Bangladesh, Sri Lanka and Mauritius
II. Malaysia-India Digital Council	B. Alliance for the conservation of big cats
III. Colombo Security Conclave	C. Joint military exercise with Malaysia
IV. International Big Cat Alliance	D. Cooperation on fintech, AI, cybersecurity and e-governance

Rows are two lists side by side, not matched pairs; work out the correct pairing.

- (A) I-D, II-C, III-B, IV-A
- (B) I-C, II-D, III-A, IV-B
- (C) I-D, II-B, III-A, IV-C
- (D) I-B, II-A, III-D, IV-C

Q7.

Consider the following statements:

- I. RBI and Bank Negara Malaysia are to promote local currency settlement.
- II. Victoria is the capital of Seychelles.
- III. India announced a USD 175 million assistance package for Malaysia.

Which of the above statements is/are correct?

- (A) II and III only
- (B) I and III only
- (C) I and II only
- (D) I, II and III

Kavach and the North-East Tunnel

Transport and connectivity is one of the topics covered in the February 2026 current affairs section of the booklet. The first item is Kavach, which the booklet describes as India's Indigenous Automated Train Protection System. Kavach has been deployed across more than 2200 route kilometres in India, and it is presented as a rail safety system. The second item is a road-cum-rail project. The Cabinet Committee on Economic Affairs approved an underwater twin tube road-cum-rail tunnel, with the stated aim of boosting connectivity in the North-East. The booklet places the tunnel in Assam and states that the total length of the project is 33.7 km. The Kavach entry is listed first, and the tunnel entry follows it on the same page. The section lists the figures for each item, along with the name of the organisation behind the system. The tunnel is described as a twin tube structure, and the booklet links the project to the North-East region. The booklet presents both items as part of its February 2026 coverage of transport. Each item is given a short entry with its key features.

Q1.

Kavach was developed by which organisation?

- (A) Gas Turbine Research Establishment
- (B) Defence Research and Development Organisation
- (C) Research Designs & Standards Organisation (Indian Railways)
- (D) Indian Space Research Organisation

Q2.

Which of the following is NOT listed as an objective of Kavach?

- (A) Preventing train collisions
- (B) Avoiding signal passing at danger
- (C) Enhancing situational awareness for loco pilots
- (D) Replacing manual signalling

Q3.

How long is the underwater twin tube portion of the tunnel?

- (A) 15.79 km
- (B) 33.7 km
- (C) 2200 km
- (D) 16.79 km

Q4.

Assertion (A): The underwater twin tube tunnel lies beneath the Brahmaputra River.

Reason (R): The underwater section of the tunnel is the full 33.7 km length of the project.

- (A) Both A and R are true and R is the correct explanation of A
- (B) Both A and R are true but R is not the correct explanation of A
- (C) A is true but R is false
- (D) A is false but R is true

Q5.

Match List I with List II:

List I	List II
I. Kavach	A. 15.79 km
II. Gohpur	B. NH-715
III. Numaligarh	C. NH-15
IV. Underwater twin tube tunnel	D. RDSO

Rows are two lists side by side, not matched pairs; work out the correct pairing.

- (A) I-D, II-C, III-B, IV-A
- (B) I-C, II-B, III-D, IV-A
- (C) I-A, II-D, III-C, IV-B
- (D) I-D, II-A, III-B, IV-C

Q6.

Consider the following statements:

I. Kavach is designed to enhance situational awareness for loco pilots.

II. Kavach was developed by the Ministry of Road Transport and Highways.

III. The underwater twin tube tunnel is 33.7 km long.

Which of the above statements is/are correct?

- (A) I and II only
- (B) I and III only
- (C) II and III only
- (D) I only

Q7.

Consider the following statements:

Kavach is designed to prevent train collisions.

The tunnel links Gohpur with Numaligarh under the Brahmaputra.

The underwater twin tube tunnel measures 33.7 km.

How many of the above statements are correct?

- (A) Only one
- (B) Only two
- (C) Only three
- (D) All of the above

Mercury, Summits and Cyber Initiatives

Space and cyber security is one of the topic areas in the February 2026 section of the booklet. The space item concerns Mercury, which the booklet describes as the planet closest to the Sun. The booklet reports that data from a spacecraft revealed numerous bright streaks scattered across the planet's surface. A separate part of the entry lists further facts about Mercury, including several key discoveries made about the planet. The booklet lists these facts in short bullet-style lines, with one fact on each line. The cyber items form the second part of the section. The booklet describes the Global CyberPeace Summit 2026 as an event that concluded. The summit is listed alongside other entries in the cyber section. Another entry is a programme that builds talent in cyber and AI, and the booklet notes that it was launched in partnership with another organisation. The booklet also introduces two bodies in this area, one working on future risks and one working in the automotive field. Each of these items is listed with its own name and a short description in the booklet.

Q1.

Match List I with List II:

List I	List II
I. Global CyberPeace Summit 2026	A. EC Council partnership
II. AI Scholarship Programme	B. Quantum computing risks
III. Global Quantum Threat Alliance	C. Connected, autonomous and electric vehicles
IV. CoE on Automotive Cybersecurity	D. New Delhi

Rows are two lists side by side, not matched pairs; work out the correct pairing.

- (A) I-C, II-A, III-D, IV-B
- (B) I-B, II-C, III-D, IV-A
- (C) I-D, II-A, III-B, IV-C
- (D) I-B, II-A, III-C, IV-D

Q2.

Consider the following statements:

Mercury has moons.

The Global Quantum Threat Alliance addresses future cyber risks arising from quantum computing.

Mercury is the densest planet after Earth.

How many of the above statements are correct?

- (A) Only one
- (B) Only two
- (C) Only three
- (D) All of the above

Q3.

Mercury's large core is described in the booklet as being rich in which element?

- (A) Ice
- (B) Carbon
- (C) Iron
- (D) Helium

Q4.

Data from which NASA mission revealed numerous bright streaks across Mercury's surface?

- (A) Gaganyaan
- (B) Chandrayaan
- (C) Aditya
- (D) MESSENGER

Q5.

Consider the following statements:

- I. Mercury is the fastest orbiting planet around the Sun.
- II. The Global CyberPeace Summit 2026 concluded in Mumbai.
- III. The Global CyberPeace Summit 2026 was organised by NASA.

Which of the above statements is/are correct?

- (A) I and II only
- (B) II and III only
- (C) I and III only
- (D) I only

Q6.

Water ice was confirmed on Mercury in which type of craters?

- (A) Permanently shadowed polar craters
- (B) Lunar highland craters
- (C) Volcanic craters
- (D) Coastal craters

Q7.

Assertion (A): Mercury has no moons or rings.

Reason (R): Mercury is the smallest planet in the Solar System.

- (A) Both A and R are true and R is the correct explanation of A
- (B) Both A and R are true but R is not the correct explanation of A
- (C) A is true but R is false
- (D) A is false but R is true

Pharmacopoeia, APEDA and Rafah

The institutions and places part of the February 2026 booklet includes the following items. The first body is the Indian Pharmacopoeia Commission. The booklet describes the Pharmacopoeia as a compendium that defines standards for the identity, purity, strength and quality of medicines. The Commission is shown as prescribing quality standards for drugs that are manufactured, sold and consumed in India. Its key publications include the Indian Pharmacopoeia, which is described as the official book of drug quality standards in India, and the National Formulary of India. The Indian Pharmacopoeia Commission is presented first, and the APEDA entry follows it. The booklet gives the Commission's establishment and headquarters in its entry. The second body is APEDA, the Agricultural and Processed Food Products Export Development Authority. Its functions include facilitating and promoting the export of agricultural and processed food products, and it also has an inspection and quality control role. The third item is a place: the Rafah Crossing in Gaza. The booklet says the crossing allows limited movement and humanitarian access, and it lists the crossing among other border points in Gaza. The Rafah Crossing entry is the last item in the places

section of the booklet. Each entry is short, and the booklet arranges them under separate headings for organisations and for places.

Q1.

In which year was APEDA established?

- (A) 1985
- (B) 2005
- (C) 1986
- (D) 2008

Q2.

APEDA's headquarters is located in which city?

- (A) Ghaziabad
- (B) New York
- (C) New Delhi
- (D) Jabalpur

Q3.

Under which ministry does the Indian Pharmacopoeia Commission function?

- (A) Ministry of Commerce and Industry
- (B) Ministry of Railways
- (C) Ministry of Defence
- (D) Ministry of Health & Family Welfare

Q4.

Assertion (A): The Indian Pharmacopoeia is a legally binding compendium.

Reason (R): The Indian Pharmacopoeia Commission was established in 2005.

- (A) Both A and R are true and R is the correct explanation of A
- (B) Both A and R are true but R is not the correct explanation of A
- (C) A is true but R is false
- (D) A is false but R is true

Q5.

Match List I with List II:

List I	List II
I. National Formulary of India	A. Often referred to as Gaza's Lifeline
II. APEDA	B. Headquartered in Ghaziabad
III. Rafah Crossing	C. Promotes rational use of medicines
IV. Indian Pharmacopoeia Commission	D. Statutory body under the APEDA Act 1985

Rows are two lists side by side, not matched pairs; work out the correct pairing.

- (A) I-A, II-B, III-C, IV-D
- (B) I-D, II-C, III-B, IV-A
- (C) I-C, II-D, III-A, IV-B
- (D) I-D, II-A, III-C, IV-B

Q6.

Consider the following statements:

- I. APEDA marked 40 years of promoting India's agricultural exports.
- II. The Indian Pharmacopoeia Commission signed five MoUs.
- III. The Indian Pharmacopoeia Commission is headquartered in New Delhi.

Which of the above statements is/are correct?

- (A) I and II only
- (B) I only
- (C) II and III only
- (D) I and III only

Q7.

Consider the following statements:

The Rafah Crossing was partially reopened after two years.

APEDA was established in 1975.

The Indian Pharmacopoeia Commission signed three MoUs.

How many of the above statements are correct?

- (A) Only one
- (B) Only two
- (C) Only three
- (D) All of the above

Type-in-the-answer passages

Alternative Tariff Laws Recall

After the Supreme Court limited the use of emergency economic powers for tariffs, the government had to look to other statutes. The Trade Act of 1974 contains a provision that lets the President impose temporary tariffs. Its purpose is to protect domestic industries and to address trade imbalances or unfair trade practices. The President has used this power to impose a temporary tariff on goods from all countries. A separate provision of the same Act allows action against foreign regulations that unfairly burden American trade. Another route is the Tariff Act of 1930, which permits import tariffs against countries with discriminatory trade practices. The Trade Expansion Act of 1962 allows import restrictions on goods that threaten national security, and this power has been applied to steel and aluminium. Taken together, these laws show that tariff policy can be pursued through specific statutes rather than through emergency powers. Each of these laws addresses a different kind of trade problem, such as a trade imbalance, a threat to national security, unfair foreign regulations or discriminatory trade practices. The government's options therefore depended on matching the legal tool to the specific concern. After the ruling, officials had to choose among these statutes while keeping within the conditions that each one sets out in its own text.

Q1.

For how many days at most can a temporary tariff under the Trade Act 1974's temporary-tariff provision be imposed? (in days)

Answer: _____

Q2.

What is the maximum temporary tariff rate, in per cent, that Section 122 permits?

Answer: _____

Q3.

What rate, in per cent, did the President impose on goods from all countries under Section 122?

Answer: _____

Q4.

What is the maximum import tariff rate, in per cent, that the Tariff Act 1930 permits against countries with discriminatory trade practices? (in per cent)

Answer: _____

Q5.

Which section of the Tariff Act 1930 allows import tariffs against countries with discriminatory trade practices? (give the number)

Answer: _____

Q6.

Which section of the Trade Expansion Act 1962 authorises import restrictions on goods threatening national security? (give the number)

Answer: _____

Q7.

Which section number of the Trade Act 1974 was used to impose the 10% temporary tariff on goods from all countries? (give the number)

Answer: _____

India's Nuclear Milestones

India's nuclear journey began with an institutional foundation laid under the guidance of a physicist widely regarded as the father of the country's nuclear programme. Within a few years of that foundation, a reactor became operational, marking the first nuclear reactor in Asia. Later, a power plant became the country's first commercial nuclear power station, built with support from the United States and the IAEA. Decades later, India's testing record drew global attention. In May 1998, India carried out a series of nuclear tests at the Pokhran range in Rajasthan's Thar Desert, after an earlier test in the same location. The first tests in that May round were given codenames, and the series was completed in a second round a few days later. India's approach to these weapons has been shaped by its stated policy on their use, which commits it to not striking first. A major turning point came when a group of nuclear suppliers granted India a waiver that allowed nuclear trade, even though India is not a signatory to the Non-Proliferation Treaty. Today India is pursuing a three-stage plan that uses thorium for sustainable power, and a prototype fast breeder reactor is part of that effort. These milestones show how the domestic programme, testing record and diplomacy have developed side by side.

Q1.

In which year did India conduct its first nuclear test, 'Smiling Buddha', at Pokhran? (year)

Answer: _____

Q2.

Who is regarded as the father of India's nuclear programme? (name)

Answer: _____

Q3.

In which year did the Apsara reactor become operational? (year)

Answer: _____

Q4.

Which station became India's first commercial nuclear power plant when it began operations in 1969? (name)

Answer: _____

Q5.

How many nuclear tests did India conduct in total in the Pokhran-II series of May 1998? (number)

Answer: _____

Q6.

What is the name of India's policy that pledges no first nuclear strike? (short phrase)

Answer: _____

Q7.

In which year did the NSG grant India a waiver enabling nuclear trade? (year)

Answer: _____

July Charter: Typed Answer Practice

Bangladesh's interim government, led by Muhammad Yunus, took part in a major constitutional reform agreement known as the July National Charter. The agreement aims to build what is described as the country's Second Republic and to prevent future authoritarianism. It was signed by a group of political parties together with the interim government, and the reforms were then put to voters in a referendum.

The charter places new limits on the Prime Minister. A lifetime term limit will apply to any individual serving as PM, and the Prime Minister will no longer be able to serve as head of the party and head of government at the same time. The PM also cannot declare a state of emergency alone, because the decision needs written consent from the cabinet and the leader of the opposition.

The charter also changes Parliament. The existing Jatiya Sangsad will become the Lower House, and a new Upper House, called the Senate, will be created. Reserved seats for women in the Lower House will be increased. The Deputy Speaker must be elected from the main opposition party, and a controversial rule that removes MPs who vote against their party will be removed or weakened.

Other changes cover elections and institutions. A non-partisan caretaker government will oversee general elections, and paper ballots will be mandatory. A Supreme Judicial Council and an independent Judicial Appointments Commission are to be formed. Several commissions will receive full financial and administrative independence.

Q1.

How many seats did the BNP win in the 2026 Bangladesh election? (in number)

Answer: _____

Q2.

How many political parties signed the July National Charter agreement? (in number)

Answer: _____

Q3.

How many pages long is the July National Charter agreement? (in number)

Answer: _____

Q4.

What is the lifetime term limit for a Prime Minister under the July Charter? (in years)

Answer: _____

Q5.

How many seats will the new Upper House (Senate) have? (in number)

Answer: _____

Q6.

What percentage of votes did the 'Yes' side secure in the referendum? (in per cent)

Answer: _____

Q7.

How many working days are allotted to reform under the charter? (in number)

Answer: _____

President's Rule Recall

President's Rule is the term used when the Centre takes over the government of a state. The Constitution gives the Centre a duty to make sure that every state government is carried on in accordance with its provisions. When a state's constitutional machinery fails, the Centre can take over under a separate Article, which lets the President issue a proclamation if satisfied that a state government cannot function as the Constitution requires. Such a proclamation is also used when a state does not comply with directions from the Centre. Once a proclamation is issued, Parliament must approve it within a fixed time. If both Houses approve, the arrangement continues for a fixed period. It can be extended, but only with Parliament's approval and only up to an overall limit. During this time, the President can take over the functions of the state government and the powers of the Governor or other executive authorities. The President can also declare that the powers of the state legislature will be exercised by Parliament. A proclamation can be revoked by the President at any time through a later proclamation, and such a revocation does not need Parliamentary approval. Resolutions approving the proclamation in either House need only a simple majority of members present and voting. These rules on duration, approval and revocation are the main points to remember for this topic.

Q1.

What is the maximum overall period, in years, for which President's Rule can be extended? (in years)

Answer: _____

Q2.

Within how many months of its issue must both Houses of Parliament approve a proclamation of President's Rule? (in months)

Answer: _____

Q3.

For how many months does President's Rule continue after both Houses approve it? (in months)

Answer: _____

Q4.

Which state has experienced President's Rule the most number of times?

Answer: _____

Q5.

Name the 1994 Supreme Court case which held that the President's power to dismiss a State Government is not absolute.

Answer: _____

Q6.

Under which Article does the Centre's duty to ensure that every state government is carried on per the Constitution arise? (article number)

Answer: _____

Q7.

Which state has experienced the longest single period under President's Rule? (state name)

Answer: _____

Tax and Fiscal Check

Union Budget 2026-27 pairs tax simplification with a cautious fiscal stance. The government decided to replace the old income tax law with a shorter statute, with the aim of reducing disputes between taxpayers and the tax department. Importantly, the existing income tax slabs were kept unchanged, so individuals did not face a change in rates for the year. Remittances for education, medical care and overseas tours were brought under a single simpler rule. A change was also proposed for companies that report high book profits but pay little or no taxable income. Under the proposal, a minimum tax would become a final tax at a lower rate than before, and non-residents would be exempted from it. On the economic side, the budget projects a growth path that combines price growth with real output growth. The government has also set a deficit target for the year and expects public debt, measured against the size of the economy, to fall gradually. A new fiscal plan aims to stabilise that debt ratio by the end of the decade. Capital spending receives special attention because infrastructure investment is seen as a strong multiplier of economic activity. Taken together, these measures seek to combine a stable tax regime with disciplined public finances.

Q1.

What is the fiscal deficit target for FY 2026-27 (in per cent of GDP)?

Answer: _____

Q2.

On which date (day, month and year) does the new Income Tax Act 2025 replace the 1961 Act?

Answer: _____

Q3.

What is the uniform TCS rate (in per cent) on LRS remittances for overseas tours, education and medical purposes?

Answer: _____

Q4.

To what rate (in per cent) is the Minimum Alternate Tax proposed to be cut?

Answer: _____

Q5.

Under which section of the Income Tax Act 1961 is TCS governed?

Answer: _____

Q6.

What is the maximum LRS remittance limit per financial year for a resident individual (in USD)?

Answer: _____

Q7.

What nominal GDP growth rate (in per cent) does the budget project for FY 2026-27?

Answer: _____

Fiscal limits and local bodies

The Commission's recommendations also reach beyond the Union and State governments to local bodies, which deliver services at the grassroots level. It recommends grants for both rural and urban local bodies and for disaster management, and it links part of these grants to performance so that local bodies are held accountable. To encourage the growth of cities, it proposes a premium

that rewards the merger of neighbouring peri-urban villages into adjoining urban local bodies, provided the receiving body has a population above a set level. The report also suggests removing a constitutional requirement that Central Finance Commission recommendations be made on the basis of State Finance Commission recommendations. On fiscal matters, the Commission wants the Centre and the States to keep their deficits within set limits by a target year, and it has recommended ending off-budget borrowings by States so that debt is transparent. Some borrowing for capital investment through a long-term, interest-free loan scheme is kept outside the deficit limit. The Commission also urged States to pursue reforms in power distribution companies and to use targeted subsidies that come with sunset clauses.

Q1.

In which year was the 16th Finance Commission set up? (year)

Answer: _____

Q2.

By which year does the Commission recommend the Centre's fiscal deficit be reduced to 3.5% of GDP? (year, in the form 2030-31)

Answer: _____

Q3.

What is the recommended fiscal deficit limit for States, as a percentage of GSDP? (in per cent)

Answer: _____

Q4.

Which scheme's borrowings are excluded from the fiscal deficit limit? (acronym)

Answer: _____

Q5.

What cost-sharing ratio applies to disaster management in North-Eastern and Himalayan States? (in the form A:B)

Answer: _____

Q6.

Peri-urban villages are to merge into adjoining urban local bodies whose population is above how many lakh? (in lakh)

Answer: _____

CPI 2024: the numbers behind the changes

When the index is revised to a new base year, the basket is reviewed so that it matches what households now buy. Several parts of the method change in such a revision. The number of items in the basket can rise, and the split between goods and services can shift to give services a larger place. Prices from online sellers may be recorded directly where the market is large enough to be tracked. The grouping of items into divisions, groups and classes follows an international classification standard, and the newer version is adopted in the revision. Housing is handled separately, through a rent index that depends on what households pay for accommodation. Coverage of this rent index can be widened beyond its earlier scope. The weight given to food is also revised, because household spending has diversified. Finally, the agency decides how widely the results are published. Each of these choices affects how accurately the index measures the cost of living.

Q1.

How many items are included in the CPI 2024 basket (in number)?

Answer: _____

Q2.

How many of the CPI 2024 items are services (in number)?

Answer: _____

Q3.

How many online markets will be covered under CPI 2024 (in number)?

Answer: _____

Q4.

Which version of the COICOP classification does CPI 2024 follow? (give the year)

Answer: _____

Q5.

What was the food and beverages weightage under CPI 2012 (in per cent)?

Answer: _____

Q6.

What is the food and beverages weightage under CPI 2024 (in per cent)?

Answer: _____

Q7.

Apart from urban areas, for which other type of area is the CPI 2024 house rent index compiled? (one word)

Answer: _____

Flagship Programmes and Funding

India's flagship AI efforts combine large-scale infrastructure with social and developmental goals. Public programmes aim to widen access to computing power for researchers, startups and public institutions, so that more people can build and use AI within the country. National strategy emphasises sovereign capacity, meaning that India should rely less on foreign systems for its critical digital needs. Large financial commitments support this push, including pledges for frontier deep-tech research and a broad infrastructure build-out that includes new data centres. A national portal acts as a knowledge hub and helps build the wider AI ecosystem. Several schemes target specific communities, such as women entrepreneurs and young innovators, and some are delivered through partnerships with government bodies and research institutions. Internationally, India's initiatives sit alongside global bodies that guide responsible AI development and the governance processes that set guardrails for advanced AI systems. Together, these programmes aim to turn national ambition into practical tools that serve citizens across sectors and languages, while keeping ethics and inclusion at the centre of the effort.

Q1.

What budget, in crore, backs the IndiaAI Mission? (number only)

Answer: _____

Q2.

How many sovereign GPUs does IndiaAI Mission 2.0 aim to onboard? (number)

Answer: _____

Q3.

In which city is AIRAWAT, India's largest AI supercomputing system, located? (city)

Answer: _____

Q4.

Which company manufactured AIRAWAT? (company name)

Answer: _____

Q5.

Which programme identifies scalable AI solutions for development challenges and is implemented with Startup India? (programme name)

Answer: _____

Q6.

In which city is the secretariat of GPAI based? (city)

Answer: _____

Q7.

Which institute spearheads the Bharat GenAI initiative? (institute, short name)

Answer: _____

Indian Laws and Agencies Recall

India relies on a mix of laws and specialised bodies to fight corruption in public life. The Prevention of Corruption Act penalises corruption by public servants and those who abet it, while the Prevention of Money Laundering Act prohibits the use of proceeds of crime. Citizens gain smoother and greater access to information through a citizen-centric approach to governance. The Central Vigilance Commission oversees vigilance administration and advises the executive on corruption matters. The Central Bureau of Investigation is described as the premier investigating police agency for combating corruption in public life, and it serves as the nodal agency for INTERPOL in India. The Directorate of Enforcement deals with cases related to money laundering by public servants. The Comptroller and Auditor General acts as the Supreme Audit Institution that helps identify financial mismanagement, corruption or fraud. Together these institutions form the backbone of India's governance and accountability framework, although the booklet notes that persistent challenges remain. Each body works within its own mandate, and together they support the country's broader efforts against corruption. The Right to Information Act is one of the tools that gives citizens a more open route to government information. Public servants, who are the focus of several of these laws, face penalties when they engage in corruption.

Q1.

In which year was the Central Vigilance Commission established? (year)

Answer: _____

Q2.

Which Article is cited for the Comptroller and Auditor General of India? (article number)

Answer: _____

Q3.

Which Act, enacted in 2014, allows registration of corruption or misuse of power against public servants? (name of the Act)

Answer: _____

Q4.

In which year was the Directorate of Enforcement established as an Enforcement Unit? (year)

Answer: _____

Q5.

Which committee's recommendations led to the setting up of the Central Vigilance Commission?
(name of committee)

Answer: _____

Q6.

What is the fixed tenure of the CAG of India, ignoring the age limit? (in years)

Answer: _____

Q7.

In which year was the Central Bureau of Investigation formed? (year)

Answer: _____

Concerns and Tribal Facts

The Great Nicobar project has raised serious environmental and social concerns. Critics argue that the environmental study relied on too little field data, so it may not capture how the island's species behave across changing conditions. Compensatory afforestation has been proposed in a different state, but critics say a new plantation cannot reproduce the unique structure and species of a natural forest. Indigenous communities are at the centre of the debate. Certain tribal groups are considered especially vulnerable. Any disturbance could cause loss of habitat, disruption of traditions and a hit to local livelihoods. The island is also exposed to natural hazards. Earthquakes, tsunamis and the impacts of climate change add to concerns about building large facilities there. Supporters point to strategic and economic gains, but the debate shows how difficult it is to weigh development against ecological and tribal rights. Whether the project proceeds responsibly will depend on how well the safeguards are enforced in practice.

Q1.

What area of tropical rainforest is reported to be diverted, in sq. km (give the number)?

Answer: _____

Q2.

Roughly how many million trees is the project reported to cut (give the number)?

Answer: _____

Q3.

The proposed compensatory afforestation is located in which state?

Answer: _____

Q4.

Which Particularly Vulnerable Tribal Group is directly threatened by the project?

Answer: _____

Q5.

The Environmental Impact Assessment was based on data from how many seasons (in number)?

Answer: _____

Q6.

How many PVTGs has the Ministry of Tribal Affairs identified (in number)?

Answer: _____

Q7.

In which year did the Government rename Primitive Tribal Groups as PVTGs?

Answer: _____

Schemes, Atlas and Accreditation

India's wetland policy combines conservation with tourism and local livelihoods. Under one capacity building scheme, a tourism ministry works with the environment ministry to make better use of wetlands. The scheme aims to enhance biodiversity, carbon stock, eco-tourism opportunities and income for local communities. Its primary focus is a shift from crowded visits to higher-value nature tourism at ecologically sensitive wetlands. Conservation at the national level is carried out through state-level bodies. A national atlas of decadal wetland change documents how these wetlands have changed over time, and an original version of that atlas was released by a national space agency unit. Such records help authorities see which wetlands have altered over a decade. Tourism is also being planned along cultural routes. A new corridor will connect Ayodhya with another place in the same state, combining cultural visits with nature, and the corridor is announced as a new route in the state. Cities are recognised too. Wetland City Accreditation is granted only to cities that satisfy all six international criteria, including measures for conservation of wetlands and their ecosystem services. The programme aims to promote conservation and wise use of urban and peri-urban wetlands.

Q1.

In which year was the original National Wetland Decadal Change Atlas released by SAC?

Answer: _____

Q2.

Which organisation prepared the National Wetland Decadal Change Atlas? (give the short form)

Answer: _____

Q3.

In which year was the National Wetland Conservation Program started?

Answer: _____

Q4.

For how many years is a Wetland City accreditation valid? (in years)

Answer: _____

Q5.

In which city was COP15 of the Ramsar Convention held in 2025?

Answer: _____

Q6.

In which year did COP 12 of the Ramsar Convention approve the Wetland City Accreditation Program?

Answer: _____

Q7.

The Nature-Culture Tourism Corridor is to be developed between Ayodhya and which other place in Uttar Pradesh?

Answer: _____

Research, Space and Maritime Security

India is investing in science, space and maritime cooperation at several levels. A new fund under the Anusandhan National Research Foundation is designed to carry research from the laboratory to industrial-scale manufacturing. Its focus areas include biotechnology, artificial intelligence, deep tech and advanced manufacturing, and it is meant to reduce import dependence. In space, the Union Budget has approved two major telescope projects in Ladakh, a region chosen for its high altitude, clear skies and minimal light pollution. One project will study the Sun, including solar magnetism and space weather, while the other will look at exoplanets, the early universe and

galaxy evolution. Maritime security is also addressed through the Combined Maritime Forces, a voluntary multinational partnership headquartered in Manama, Bahrain that aims to protect sea lanes and prevent piracy and smuggling. India has taken on a larger role in this partnership by commanding one of its task forces for the first time, with a focus on training and capacity building. Together, these developments show how India links research, infrastructure and security. Such schemes are meant to strengthen domestic capability, support new industries and reduce dependence on imports in strategic sectors.

Q1.

Under the research fund described, what is the duration of the scheme (in years)?

Answer: _____

Q2.

What is the minimum Technology Readiness Level (TRL) that the fund supports?

Answer: _____

Q3.

What is the aperture of the National Large Solar Telescope (in metres)?

Answer: _____

Q4.

What is the size of the National Large Optical Telescope, a segmented mirror telescope (in metres)?

Answer: _____

Q5.

In which place in Ladakh is the National Large Solar Telescope located?

Answer: _____

Q6.

How many nations are members of the Combined Maritime Forces (in number)?

Answer: _____

Q7.

Which Combined Task Force did India command for the first time (give the number)?

Answer: _____

Global security and forums: TITA practice

Security and maritime cooperation were in focus in early 2026. NATO launched a mission to raise its security presence in the Arctic region, with the aim of safeguarding member states, protecting territorial integrity and keeping the region stable. The mission responds to rising military activity in the area and to the growing strategic and economic interest of outside powers in the Arctic. Competition over shipping routes and natural resources is also emerging in the region.

In the Indian Ocean, India took over the chairmanship of a multilateral forum of navies from the region. The forum is voluntary and inclusive, and its purpose is to enhance maritime cooperation among the littoral states of the ocean. Leading such a forum adds to a country's maritime profile in the region.

Disarmament formed another strand of the year's news. The Indian Army hosted a United Nations training programme on small arms control for the Asia-Pacific region, held together with a UN office that works inside the UN Secretariat. That office traces its roots to an earlier department and works to strengthen international peace and security through disarmament. Taken together, these stories show how military, naval and diplomatic tools are used to manage risk. Each case

reflects a balance between cooperation and competition among states.

Q1.

Which NATO command leads the Arctic Sentry Mission? (give the full name)

Answer: _____

Q2.

In which year was the Indian Ocean Naval Symposium established?

Answer: _____

Q3.

In which year was the UN Office for Disarmament Affairs established?

Answer: _____

Q4.

In which city is the headquarters of the UN Office for Disarmament Affairs located?

Answer: _____

Q5.

In which Indian city did the Indian Army host the UN small arms control training programme? (city name only)

Answer: _____

Q6.

Which navy initiated the Indian Ocean Naval Symposium?

Answer: _____

Q7.

The UN Office for Disarmament Affairs has a core objective of complete elimination of which category of weapons? (abbreviation or full name)

Answer: _____

IEEPA: Origin and Powers

The International Emergency Economic Powers Act is a United States law that gives the President authority during serious national crises. The law is built around emergencies, so the President must first formally establish that a national emergency exists before using its powers. The threat must be unusual and extraordinary. Under the law, the President can regulate or prohibit international financial transactions and can block dealings with particular countries, entities or individuals. The law is therefore described as an emergency framework and not as a routine means of setting trade rules. Since its enactment, numerous national emergencies have been declared under it, and many have targeted particular governments or groups. Before a recent order, no President had used this law to impose trade tariffs. That order, known as the Liberation Day executive order, declared a national emergency and cited harmful trade practices and a lack of reciprocity in trade relations. Its use for tariffs was therefore a new application of an older statute. The statute is designed to respond to a specific threat rather than to set general trade policy for all partners.

Q1.

In which year was the IEEPA enacted? (year)

Answer: _____

Q2.

Which earlier law did the IEEPA replace? (short name)

Answer: _____

Q3.

Which US President enacted the IEEPA? (surname)

Answer: _____

Q4.

On what date is the Liberation Day executive order dated? (day month year)

Answer: _____

Q5.

The IEEPA is primarily described as which kind of tool? (one word)

Answer: _____

Q6.

From where must the threat addressed by the IEEPA originate? (one word)

Answer: _____

Q7.

What can the IEEPA allow the President to do to foreign assets held in the US? (one word)

Answer: _____

India Exports and the Deal

The rollback of the Liberation Day tariffs has eased the burden on a large part of India's exports to the United States. Goods that once faced a steep levy now face the ordinary tariff rates that apply to most trading partners, which is a major change for exporters. The rollback applies only to these benefitting goods, so it does not cover every product. Some duties remain in place. Section 232 duties still apply to metals and to certain automotive components. The 2026 India-US trade deal goes further than tariff relief. It includes commitments from India in several areas. India has agreed to buy large amounts of American goods in areas such as energy and technology. The deal also includes steps to reduce barriers that affect American exports of farm and food products. Together, these elements form a strategic economic arrangement, and the deal is presented as a step towards a market with zero tariffs. The arrangement is therefore broader than a simple reduction in duties, and it touches both tariffs and commitments. For India, the most immediate effect is on goods that benefit from the rollback, while the commitments shape the longer-term relationship. Overall, the deal combines tariff relief with commitments from India.

Q1.

What levy, in per cent, did the benefitting goods face before the rollback? (number)

Answer: _____

Q2.

What rate, in per cent, of Section 232 duty remains on steel and aluminium? (number)

Answer: _____

Q3.

What penalty, in per cent, for purchasing Russian oil has been eliminated? (number)

Answer: _____

Q4.

Which US agricultural export, named alongside nuts, does India aim to remove import barriers for? (one word)

Answer: _____

Q5.

What does MFN stand for in tariff terms? (three words)

Answer: _____

Q6.

Under the 2026 deal, India commits massive procurement of US energy, technology and which third category of products? (one word)

Answer: _____

Congress and India-US Trade

The US Congress is a bicameral legislature, which means it has an upper and a lower house. The House of Representatives is the lower house, and its members face voters more often than the members of the upper house do. The upper house is the Senate, where each state is represented equally regardless of its population. Senators are elected for longer terms, and their seats are contested in a staggered pattern, so only part of the Senate is chosen at each election. The Supreme Court's ruling on the IEEPA tariffs means that broad tariffs require congressional approval, which makes the legislature central to trade decisions. Trade between India and the United States is large, and India exports more to the United States than it imports from the United States. The United States is also one of the investors in India, and its investments have grown over many years. Congress meets in the Capitol building in Washington, D.C., which is the seat of the national legislature. The Senate and the House both play a role in the national legislative process. The chambers differ in size, in the length of their terms, and in the way representation is organised. Senators are members of the Senate and represent their states in it.

Q1.

How many seats does the US Senate have? (number)

Answer: _____

Q2.

How many seats does the House of Representatives have? (number)

Answer: _____

Q3.

For how many years are US senators elected? (number of years)

Answer: _____

Q4.

For how many years are House members elected? (number of years)

Answer: _____

Q5.

What was India-US total trade in 2024, in USD billion? (number)

Answer: _____

Q6.

What was the cumulative FDI inflow from the US to India over 2000-2024, in USD billion? (number)

Answer: _____

Q7.

What were India's exports to the US in 2024, in USD billion? (number)

Answer: _____

Cold War Arms Control Milestones: TITA Practice

Arms control between the United States and the Soviet Union developed through a sequence of talks, agreements and interim pacts. The booklet defines disarmament as reducing or eliminating weapons, either unilaterally or mutually, to promote global peace and security. In 1967, US President Lyndon B. Johnson warned that a Soviet missile defence system around Moscow raised the danger of a destabilising first-strike capability. The Strategic Arms Limitation Talks, known as SALT, produced agreements that dealt with missile defence and with delivery systems. Some of these agreements were never ratified by one of the two sides, while others were overtaken by later events. The Strategic Arms Reduction Treaty, known as START I, was concluded in 1991. It enforced inspections and capped the number of nuclear warheads, and it was followed in 1993 by START II, which was intended to reduce nuclear weapons further. The booklet notes that START II did not survive in its original form, and it links that outcome to a withdrawal by one of the parties. Missile defence, delivery systems and warhead numbers were each addressed in different instruments. Each agreement is dated and named in the booklet. Taken together, these agreements show how the two powers attempted to manage their nuclear balance over several decades.

Q1.

What maximum number of nuclear warheads was capped under START I (1991)? (number)

Answer: _____

Q2.

Which 2002 interim agreement between the US and Russia is also called the Moscow Treaty? (acronym)

Answer: _____

Q3.

Soviet military intervention in which country led the United States never to ratify SALT II? (country)

Answer: _____

Q4.

Which round of the Strategic Arms Limitation Talks (1969-1972) produced the ABM Treaty? (name the round)

Answer: _____

Q5.

Russia withdrew from START II after the United States exited which treaty? (name)

Answer: _____

Q6.

What number of nuclear weapons did START II (1993) aim to reduce to? (number)

Answer: _____

Q7.

In which year did START I (1991) expire? (year)

Answer: _____

Nuclear Treaties and Control Regimes: TITA Practice

Nuclear arms control is pursued through a network of global instruments rather than a single agreement. Some of these instruments are treaties, while others are informal understandings or export-control arrangements. The booklet groups its subjects under headings for nuclear disarmament treaties and nuclear control regimes. Disarmament, as the booklet explains it, involves reducing or eliminating weapons, either unilaterally or mutually, to promote global peace and security. Some instruments deal with the spread of nuclear weapons, and others deal with testing. A further group of arrangements coordinates national controls on goods that could be used

in weapons programmes. The booklet also recalls the atomic bombings of Hiroshima and Nagasaki in August 1945, which were carried out by the United States. Its account of India's nuclear history includes the Pokhran tests of 1974 and 1998. The booklet describes the International Atomic Energy Agency as an organisation that monitors peaceful nuclear programmes, and it was established in 1957. It states that the agency assists nations in using nuclear technology. Nuclear-weapon-free zones are regions committed to banning nuclear weapons, and the booklet describes them alongside the instruments listed above.

Q1.

Which 1967 treaty bans the deployment of weapons of mass destruction in outer space? (name of the treaty)

Answer: _____

Q2.

Which 1968 treaty classifies nations as nuclear-weapon or non-nuclear-weapon states? (short form)

Answer: _____

Q3.

In which year was the Comprehensive Nuclear Test Ban Treaty concluded? (year)

Answer: _____

Q4.

In which year was the Treaty on Prohibition of Nuclear Weapons concluded? (year)

Answer: _____

Q5.

Which informal political understanding of 1987 aims to prevent proliferation of missiles and UAVs capable of delivering weapons of mass destruction? (acronym)

Answer: _____

Q6.

Which 1985 informal export control forum was formed after chemical weapons were used in the Iran-Iraq War? (name)

Answer: _____

Q7.

Which 1996 voluntary export control regime promotes transparency in conventional arms and dual-use exports? (name)

Answer: _____

2026 Election Results: Practice TITA

Bangladesh has completed its 13th General Election, a contest that marks a major turning point in national politics. The vote came after roughly eighteen months of upheaval. That upheaval was led by students, and an interim arrangement governed the country for a period before the election. The result has ended a long stretch in which a single party held the country's politics in a firm grip, and the booklet presents it as a major political shift.

Tarique Rahman, who had emerged as the top leader of his party, has now taken office as Prime Minister. He took the oath at a formal ceremony in the capital, and the event was attended by a guest. He is the child of two former leaders of the country, and his arrival in power follows the overthrow of the government that preceded it.

The new government therefore begins its work after a period of intense change in national life. Several parties have won seats in the new legislature, and the composition of the house reflects the

outcome of the vote. The previous Prime Minister had left the country after the uprising. The booklet records these events in one sequence, from the upheaval to the new administration.

Q1.

How many seats did the National Citizen Party win in the 2026 Bangladesh election? (in number)

Answer: _____

Q2.

In which year was the Bangladesh Nationalist Party founded? (year)

Answer: _____

Q3.

Which guest attended the swearing-in ceremony of the new Prime Minister? (name)

Answer: _____

Q4.

How many members of the legislature are elected directly through the first-past-the-post system? (in number)

Answer: _____

Q5.

Which party secured an absolute majority of seats in the 2026 election? (short name)

Answer: _____

Q6.

Which party emerged as the second-largest party in the 2026 election? (party name)

Answer: _____

Political Transitions: Practice TITA

Bangladesh became independent from Pakistan in the early 1970s, and Sheikh Mujibur Rahman became the country's first Prime Minister after that. He later changed the constitution, and he also became head of state himself. The years that followed brought a sharp change in political life, and several of the country's leaders died violently. Some of these deaths took place during military actions, and army officers were involved in some of the incidents.

Power then passed between different leaders and parties over the following decades. One leader who held the presidency announced elections, which prepared the way for the next general election. That same leader was later killed during an attempted coup.

The most recent phase followed large public protests. A leader who had governed for a long time left the country, and an interim government led by Muhammad Yunus then took charge of the country's affairs.

The booklet traces these changes through a series of dated events, which together show how leadership and political structures shifted over several decades. Each change is linked to a specific period, and the sequence of transitions forms the background to the country's current politics. Each date in the booklet is tied to a named leader or event, which helps place the changes in order.

Q1.

In which year did Bangladesh gain independence from Pakistan? (year)

Answer: _____

Q2.

In which year was Ziaur Rahman assassinated? (year)

Answer: _____

Q3.

In which year did Bangladesh hold its second general election? (year)

Answer: _____

Q4.

In which city was Ziaur Rahman assassinated? (one word)

Answer: _____

Q5.

What is the acronym of the single party formed by the 1975 constitutional amendment? (acronym)

Answer: _____

Q6.

Which President, who took office in 1977, was killed during an attempted coup? (name)

Answer: _____

Q7.

Which party last governed Bangladesh during 2001-2006? (party acronym)

Answer: _____

India-Bangladesh Ties: Practice TITA

Relations between India and Bangladesh have passed through several phases, shaped by security concerns, trade and the approach of successive governments. Some periods were difficult, while others saw closer cooperation. The relationship has therefore been closely tied to the leadership in Dhaka at each stage.

Trade is central to the relationship. Cooperation extends to infrastructure, energy and defence, and both sides have pursued connectivity projects such as road and rail links. Visa arrangements also matter to citizens who travel for healthcare and tourism, and the visa systems have been improved to support such travel.

Security is central to the present agenda. The booklet lists several priorities for the new government. These include managing political pressure over a former leader's presence in India, preventing a drift of Bangladesh toward other partners, and countering extremism and insurgency that threatens stability. Together these priorities link diplomacy with domestic politics.

After a period of sharp public feeling in Bangladesh, the relationship is being reshaped. Many citizens viewed India's support for a previous administration with suspicion, and the new government must balance these views with the need to keep trade and connectivity running smoothly. The booklet presents these issues together, so trade, security and connectivity are discussed as parts of one relationship.

Q1.

In which year was the Land Boundary Agreement between India and Bangladesh signed? (year)

Answer: _____

Q2.

Which river is the Bharat Bangla Maitri Bridge built over? (name)

Answer: _____

Q3.

What is the length of the Bharat Bangla Maitri Bridge? (in km)

Answer: _____

Q4.

Which navy joint exercise is conducted between India and Bangladesh? (one word)

Answer: _____

Q5.

Under which Prime Minister was the period 2009-2024 called the 'Golden Chapter' in India-Bangladesh ties? (name)

Answer: _____

Q6.

In which year were diplomatic relations established between India and Bangladesh? (year)

Answer: _____

Kuki-Zomi and Meitei Violence Facts

Violence in Manipur has involved clashes between Kuki-Zomi tribal groups and the Meitei community, causing deep concern across the state. Disputes between these groups have roots in land, political representation and the status of communities. The Meitei community forms the majority of the state's population and mostly lives in the valley, while the hill areas have a larger share of land and fewer assembly seats. A demand for tribal recognition from the Meitei side has been pending for a long period and has been argued in the High Court. Kuki groups have voiced fears about how such recognition could affect land rights in hill areas. The state government has also taken actions including evictions linked to forest land, and the suspension of an operations agreement with armed groups was later withdrawn. These events came in a period of growing law and order concern, and the government of the day faced demands to step down. The situation shows how land, status and security concerns have become linked in the state's public life. Several of these developments were reported widely and shaped the debate on how the state should respond to the violence. The episode drew national attention to the state's recent politics.

Q1.

Since which year has the Meitei demand for Scheduled Tribe status persisted?

Answer: _____

Q2.

How many Kuki households were evicted over forest encroachment?

Answer: _____

Q3.

Which two armed groups' suspension of operations agreement did the state withdraw from in March 2023? (names)

Answer: _____

Q4.

The first clash of its kind in Manipur came after how many decades? (number)

Answer: _____

Q5.

In which year did the Meitei community lose its tribal status through a merger?

Answer: _____

Q6.

Which Chief Minister did the Meitei community back while Kuki groups demanded resignation?
(name)

Answer: _____

Q7.

Which union petitioned the Manipur High Court seeking recognition of tribal status for the Meitei community? (name)

Answer: _____

Manipur Geography and Land Facts

Manipur's history includes a formal union with India after a period of separate rule. Its landscape is divided between a populous plain and large upland tracts, and this geography shapes how land can be owned and how seats are allotted in the legislature. Different communities face different restrictions on land purchase, depending on where they live. Groups in the hills have criticised the distribution of seats, while groups in the valley have raised concerns about the figures used for population counts and boundary drawing. Border issues and cross-border movement add a security dimension, as the state sits next to a neighbouring country that has seen political upheaval.

Trafficking and criminal networks have also been a worry in the region, given the state's location. The combination of these factors has made Manipur's politics complex, with each issue linked to questions of identity, representation and security. These patterns were visible long before recent events and continue to affect discussions about governance. Each of these issues is discussed in the context of the state's population and geography. The state's public life reflects these questions in many forms. The state government and the courts have each been involved in responding to these questions. Such matters continue to be debated in the state.

Q1.

In which year did Manipur's ruler sign the Treaty of Accession that merged Manipur into India?
(year)

Answer: _____

Q2.

How many of the 60 assembly seats do the hill areas hold? (number)

Answer: _____

Q3.

What percentage of Manipur's land do the hill areas cover? (number)

Answer: _____

Q4.

In what percentage of Manipur are Meiteis restricted from buying land? (number)

Answer: _____

Q5.

Which neighbouring country's coup triggered a refugee crisis in India's North-East? (name)

Answer: _____

Q6.

Which two groups demand greater political autonomy or separate administrative units? (names)

Answer: _____

Q7.

Manipur's proximity to which region increases its vulnerability to drug trafficking? (name)

Answer: _____

Early Instances and Judicial Points

A state's elected government may fail to run its administration in line with the Constitution. When that happens, the Union can take direct control of the state, and the arrangement is widely discussed in India under a name tied to the head of the Union. The power is connected to the Centre's responsibility to see that every state is governed according to the Constitution. Its use has a long record, and the first instances in the country date to the early period after independence. Such records show that the length of each instance has differed from one state to another. The power has also been examined by courts, which have looked at how far the central action can go. Legal debates have addressed the scope of the Centre's power, the steps needed for parliamentary involvement, and the powers that remain with the state legislature during the period. The Constitution sets out the procedure for the arrangement, including how a proclamation is approved and how long it can last. Manipur has experienced this arrangement more than once, which has made the topic a recurring subject in the state's political history.

Q1.

In which year was President's Rule first imposed in Punjab? (year)

Answer: _____

Q2.

Which state had President's Rule in 1953 among the first three instances? (name)

Answer: _____

Q3.

Which Amendment Act of 1975 made the President's satisfaction final and not challengeable in any court? (name)

Answer: _____

Q4.

Besides 'President's Rule', what is the popular name for this arrangement? (two words)

Answer: _____

Q5.

In which year was President's Rule first imposed in Andhra, the third of the first three instances? (year)

Answer: _____

Q6.

Until Parliament approves a proclamation, what is the only power the President has over the Legislative Assembly? (one word)

Answer: _____

Q7.

What majority is required for a resolution approving President's Rule in either House? (two words)

Answer: _____

Vision and Pillars TITA

Nirmala Sitharaman presented the Union Budget for the financial year 2026-27, which is her ninth consecutive Union Budget. The budget was prepared in a newly inaugurated building, and the government has presented it as a blueprint driven by Yuva Shakti. The budget is guided by a set of principles that the government has set out for the country's economy. The budget was tabled on a day of the week that had never before been used for a Union Budget, which made it a first for Parliament. The agenda is organised into six pillars of growth, and the pillars cover several different parts of the economy. Each pillar addresses a separate area, and together they form the

core of the government's growth agenda for the coming year. The budget is a statement of the estimated receipts and expenditure of the government for a financial year, and it is presented in Parliament. Preparing the budget involves several departments and bodies, and the presentation is one step in a longer process that the government follows each year. The budget also reflects the government's approach to growth for the coming year, as set out in its official budget material. Taken as a whole, the budget is a blueprint for the country's economic growth in the year ahead.

Q1.

On which day of the week was the Union Budget 2026-27 tabled? (one word)

Answer: _____

Q2.

How many guiding principles, called Kartavyas, guide the Union Budget 2026-27? (number in words or digits)

Answer: _____

Q3.

Scaling up manufacturing under one of the six pillars targets how many strategic sectors? (number in words or digits)

Answer: _____

Q4.

Name the newly inaugurated building in which the Union Budget 2026-27 was prepared. (two words)

Answer: _____

Q5.

What does the pillar on rejuvenating legacy industrial sectors aim to boost, along with competitiveness? (one word)

Answer: _____

Q6.

Which national vision is the Union Budget 2026-27 anchored in? (two words)

Answer: _____

Budget Process and Parliament TITA

The Constitution requires the government to present an annual statement of its estimated receipts and expenditure for each financial year before both Houses of Parliament. The word budget itself does not appear anywhere in the Constitution, although the annual statement is treated as the budget. The process has several stages. It begins with presentation of the statement, followed by general discussion and scrutiny by departmental committees. Then Parliament votes on demands for grants, passes an appropriation bill and passes a finance bill. The preparation of the statement is handled by a division of the finance ministry, which works with other ministries and a government policy body. Money bills and finance bills follow special procedures, and the two houses of Parliament have different roles in them. Budgets have been presented in India for well over a century, and the earliest one came before independence. The annual statement sets out the government's expected revenue and spending for the year ahead, and it also records the actual receipts and expenditure of the closing year. The budget is presented in Parliament on a date fixed for the purpose. Parliament examines the statement in a series of stages each year, and each stage has its own role in the process.

Q1.

Under which Article of the Constitution (Part V) is the annual financial statement provided for? (number)

Answer: _____

Q2.

Which division of the Department of Economic Affairs prepares the Union Budget? (two words)

Answer: _____

Q3.

In which year was the Railway Budget merged with the Union Budget? (year)

Answer: _____

Q4.

Who presented India's first budget on 7 April 1860, as Finance Member of the India Council? (full name)

Answer: _____

Q5.

For how many years was the Railway Budget presented separately before its merger? (number)

Answer: _____

Q6.

Who presented the first Union Budget after independence, on 26 November 1947? (surname)

Answer: _____

Set Up, Members and Reports

The 16th Finance Commission was set up in 2023 to recommend how tax revenue is distributed between the Centre and the States. It is a constitutional body, so its role has a formal place in India's federal structure. The Commission consists of a Chairperson and other members, and each member serves for a specified tenure rather than on an open-ended basis. The President of India constitutes each Finance Commission at intervals, and the recommendations of the 16th Commission cover the period from 2026 to 2031. The Government has accepted the key recommendations for that period. The report of the Commission is a formal document. The 16th Commission is part of a long series of Finance Commissions, the first of which was appointed in 1951. The Commission's recommendations cover a fixed period. Its members are appointed by the President of India, and the Commission works as a single body under its Chairperson. Its scope includes both the sharing of tax revenue between the Centre and the States and the grants that the Constitution allows the Union to make to the States.

Q1.

Under which Article of the Constitution is the Finance Commission constituted? (article number)

Answer: _____

Q2.

Under which Article is the report laid before Parliament along with an Action Taken Memorandum? (article number)

Answer: _____

Q3.

Apart from the Chairperson, how many other members does the 16th Finance Commission have? (number)

Answer: _____

Q4.

Who is the Chairperson of the 16th Finance Commission? (name)

Answer: _____

Q5.

Dr. Arvind Panagariya was formerly Vice-Chairman of which body? (name)

Answer: _____

Q6.

Generally, for how many years are members of the Finance Commission appointed? (number of years)

Answer: _____

Q7.

Which office-holder tabled the 16th Finance Commission Report in Lok Sabha? (office)

Answer: _____

Grants, Levies and Loans

Grants-in-aid are one way in which the Union supports the finances of State Governments. The Constitution allows Parliament to make grants to States that need financial assistance, and such grants are not extended to every State. Another category of grants is made by the Centre for any public purpose, and the Centre decides whether to make such grants at all. Levies are a separate matter. The Centre can impose a cess for a specific purpose, and the money raised must be used for that purpose. A surcharge is an additional tax on top of the base tax, aimed at people with high incomes. The Centre also runs a scheme that gives States long-term loans for capital projects. The booklet also notes that a cess must be spent on the purpose for which it is levied, and that a surcharge is charged on top of the base tax of those with high incomes. The Centre decides for itself whether to make discretionary grants, and the booklet describes this as lying within its discretion.

Q1.

Under which Article does Parliament make statutory grants to States in need of financial assistance? (article number)

Answer: _____

Q2.

Under which Article can the Centre make discretionary grants for any public purpose? (article number)

Answer: _____

Q3.

In which year was the SASCI scheme launched? (year in the form 2020-21)

Answer: _____

Q4.

For how many years are SASCI loans given to States? (number of years)

Answer: _____

Q5.

Into which fund are cess proceeds deposited? (name of fund)

Answer: _____

Q6.

What are the last two words of the full name of the SASCI scheme? (two words)

Answer: _____

Q7.

What is the nature of SASCI loans with respect to interest? (one word)

Answer: _____

Shares, Chairpersons and Concerns

Finance Commissions have been appointed periodically for several decades, and each one makes recommendations on how the Centre's tax revenue should be shared with the States. The sharing is done through a divisible pool, and the share allotted to States from that pool is one of the most debated figures in Indian public finance.

In the 16th Commission's report, the share of the divisible pool given to States has been kept at the existing level, and the Commission has said this will give States greater predictability in their revenue. Some observers have said the level is too low, and that States had sought a larger share from the pool.

The Commission has also revised the formula that decides how the States' share is split among States. The revised criteria are said to protect fiscally weaker States. The report has also drawn concern about the weight given to certain criteria, including the demographic factor, and about the discontinuation of certain grants.

The report of the 16th Commission covers the period from 2026 to 2031, and the Government has accepted its key recommendations for that period. The record of Finance Commissions runs across several decades, from the first Commission onwards, and this report is one of the most recent entries in that record.

Q1.

In which year was the First Finance Commission set up? (year)

Answer: _____

Q2.

Which numbered Finance Commission was chaired by Y.B. Chavan? (ordinal word)

Answer: _____

Q3.

Who chaired the Fifteenth Finance Commission in 2017? (name)

Answer: _____

Q4.

What per cent share of the divisible pool did States demand? (number, in per cent)

Answer: _____

Q5.

What per cent share of the divisible pool has been retained for States? (number, in per cent)

Answer: _____

Q6.

Who chaired the First Finance Commission? (name)

Answer: _____

Q7.

Concerns about 'Ageing Before Prosperity' have been raised particularly in which region of India? (one word)

Answer: _____

CPI Targets, Inflation Figures and Uses

Prices in an economy rarely stay still. Inflation describes an increase in the overall prices of goods and other items over time, and officials track it through indices. The Consumer Price Index is designed to measure inflation in the retail market, where households buy what they need. It records the average change over time in the retail prices of the items that households consume. Because it follows household purchases, it reflects the cost of living that consumers face. Every index begins with a base year, against which later prices are compared, and the items it covers are chosen to represent typical spending in that period. Spending habits move on, however. When incomes grow and lifestyles change, the purchases of households may shift to new products and new ways of buying. Without periodic revision, an index risks misrepresenting the price rise that households actually experience. Revising the base year allows an index to reflect updated consumption and price structures. Used over time, the index helps observers compare changes in the cost of living from one period to the next. Economic indicators such as GDP and the Index of Industrial Production are also compared with such indices to observe real changes over time.

Q1.

What is the current inflation target for CPI (in per cent)?

Answer: _____

Q2.

What is the lower limit of the inflation band around the target (in per cent)?

Answer: _____

Q3.

What was overall inflation (year-on-year) in January 2026, in per cent? (provisional figure)

Answer: _____

Q4.

What was urban inflation in January 2026 (in per cent)?

Answer: _____

Q5.

Which central bank uses CPI for monetary policy decisions? (abbreviation)

Answer: _____

Q6.

Which sector's expansion is cited among the structural shifts since 2012? (one word)

Answer: _____

Agencies, Base Years and Coverage

Inflation refers to an increase in overall prices in an economy over time, and several indices are used to measure it. The Consumer Price Index measures inflation in the retail market, and it reflects the cost of living experienced by consumers. The Wholesale Price Index measures average changes in wholesale prices. Both indices are released by official bodies, and each one has a base year that serves as the reference point. Items in the consumer index include food, fuel and light, clothing and footwear, and housing. The indices differ in their coverage, so a reader should check the scope of each figure before comparing them. Price measurement must reflect changing consumption behaviour, since household spending changes as incomes rise. Without periodic revision, an inflation index risks misrepresenting the actual price rise experienced by households. Revising the base year allows an index to reflect updated consumption patterns and price structures. A revised index is therefore a better reflection of the prices households face. Revisions bring in newly added items and drop items that households no longer buy, which keeps the basket current. This is why the revised index matters.

Q1.

Which agency releases the Consumer Price Index? (abbreviation)

Answer: _____

Q2.

What is the base year of the Wholesale Price Index? (format YYYY-YY)

Answer: _____

Q3.

Which ministry's Office of Economic Adviser releases the WPI? (name of ministry, short form acceptable)

Answer: _____

Q4.

Which sector is not considered by the WPI? (one word)

Answer: _____

Q5.

Which kind of taxes does the WPI exclude? (one word)

Answer: _____

Q6.

Which office releases the WPI? (give the office name without the ministry)

Answer: _____

Summit Theme and Objectives: TITA practice

A major artificial intelligence meeting was held in India in 2026, and its organisers presented it as a new chapter for the field. Earlier discussions were described as following a Western safety-first model. The organisers argued for a different starting point, one in which development is central and AI is judged by how far it improves the lives of ordinary citizens. This framing placed the meeting within a longer series of international AI gatherings that had come before it.

The meeting was built around a short guiding phrase that pointed to the welfare of everyone. A set of guiding principles shaped its agenda, covering inclusive development, ethical innovation and sustainable societal impact. Within this framework, the meeting identified priority areas where cooperation could produce results, including health, farming and education.

The meeting was also meant to promote the responsible development of AI. Beyond the gathering itself, the organisers hoped to link its outcomes with national programmes for digital growth and with a growing domestic technology base. Its discussions were expected to move from broad global conversations towards practical applications that can be scaled across a large country.

Some participants were expected to focus on how India's own research institutions and companies could contribute to this work, and the wider aim was to strengthen an indigenous ecosystem for the technology.

Q1.

In which city is Bharat Mandapam, the venue of the India AI Impact Summit 2026? (city)

Answer: _____

Q2.

Which city will host the 2027 World Summit on Artificial Intelligence? (city)

Answer: _____

Q3.

What is the name of the first of the three Sutras? (one word)

Answer: _____

Q4.

Under which objective number of the summit are algorithmic bias and privacy protection addressed? (number)

Answer: _____

Q5.

How many Sutras (guiding principles) does the summit have? (number)

Answer: _____

Q6.

Which priority area is the sixth of the seven Chakras? (name)

Answer: _____

Previous Summits and M.A.N.A.V.: TITA practice

India's 2026 summit saw the unveiling of a human-centric framework for ethical and inclusive artificial intelligence. The framework is built on a set of principles, each represented by one letter of its name. Its principles address several concerns, including the design of AI systems, the responsibility of institutions, the role of domestic capacity and data, and the role of trust in an era of misinformation.

The framework was introduced against a background of earlier international meetings on AI, held in several countries. The series began with a meeting focused on the risks linked to advanced AI systems. Later summits followed in other years and cities, and the subject has remained on the international agenda.

Each principle in the framework is meant to be read alongside the others, and together they form one human-centric approach. The framework therefore links technical design with questions of governance, legitimacy and public trust. Its ideas were presented as part of a wider effort to make AI serve people.

Several earlier meetings addressed similar questions from different angles, and the summit's framework was placed within that wider international context. The subject has been discussed in forums across different countries, and the India gathering was one more step in that conversation. Its framework formed part of that wider debate.

Q1.

Which country hosted the 1st AI Safety Summit? (country)

Answer: _____

Q2.

In which city was the 3rd AI Action Summit held? (city)

Answer: _____

Q3.

Which letter of the M.A.N.A.V. framework stands for National Sovereignty? (one letter)

Answer: _____

Q4.

In which year was the AI Seoul Summit held? (year)

Answer: _____

Q5.

What is the name of the principle represented by the second 'A' of M.A.N.A.V.? (name)

Answer: _____

Q6.

Which declaration was adopted at the UK-hosted AI Safety Summit? (name)

Answer: _____

Sovereign Models and Platforms: TITA practice

Sovereign artificial intelligence refers to a country's ability to develop, control and deploy its own AI technologies, and India has pursued this goal through a number of models and platforms. Some are designed for language, others for sectors such as health and biotechnology. The work is carried out by private companies, research institutions and public bodies, which together form a national effort.

Indian languages present a particular challenge for developers. The country has many languages, and a model that works well in one may perform less well in another. Some platforms therefore concentrate on speech and translation, helping citizens use digital services in their own language. Other efforts focus on generating written text in a fluent and natural form.

In health, platforms are being built to test AI systems against real-world data while protecting patient privacy. National frameworks also set out how AI may be integrated into healthcare services. Several of these initiatives sit within existing government missions.

Biotechnology forms another part of the picture. Policies that connect AI with the life sciences aim to bring computer models and laboratory work closer together, so that predictions can be checked by experiments. Such efforts are presented as a way to link research with national priorities.

Q1.

Which organisation developed the Param2 17B multilingual foundational AI model? (name)

Answer: _____

Q2.

Under which policy is the Bio-AI Mulankur Hubs initiative placed? (policy acronym)

Answer: _____

Q3.

How many Indian languages does the Vachana text-to-speech model support? (number)

Answer: _____

Q4.

Which institute developed BODH in collaboration with the National Health Authority? (name)

Answer: _____

Q5.

What is the name of the open-source, end-to-end voice AI stack? (name)

Answer: _____

Q6.

What is the name of Sarvam AI's multilingual chatbot? (name)

Answer: _____

India's CPI 2025 figures

The Corruption Perceptions Index is released by Transparency International, a non-profit organisation whose aim is to combat global corruption through civil society anti-corruption measures. The index assesses public sector corruption and is described as a leading global indicator of that problem. It highlights global trends and structural causes, and it recommends measures to strengthen institutional integrity. The latest edition reports that the global average score has declined to its lowest level in over a decade, which indicates worsening corruption trends worldwide. Only a small number of countries now score above 80, compared with a larger number a decade ago. Many countries still fall in the serious-concern range, with most nations scoring below 50. India's position in the latest edition is of particular interest to readers in the country. Its performance is assessed against the global average, and the booklet compares it with several South Asian neighbours. The comparison shows that India performs better than some countries in its region, while it lags behind others. The booklet concludes that these results point to scope for institutional strengthening.

Q1.

What is India's score out of 100 in CPI 2025? (number)

Answer: _____

Q2.

What was India's rank among the countries assessed in CPI 2025? (ordinal number)

Answer: _____

Q3.

What was the global average CPI score in 2025? (number)

Answer: _____

Q4.

Name the country, other than China, that India lags behind in CPI 2025.

Answer: _____

Q5.

Which CPI score denotes 'Very Clean' at the top of the scale? (number)

Answer: _____

Q6.

How many countries were assessed in CPI 2025? (number)

Answer: _____

Q7.

What two kinds of challenges does the booklet link to India's position? (two words joined by 'and')

Answer: _____

Dates and names of anti-corruption bodies

Several international bodies and instruments deal with corruption, and the booklet describes some of the most significant ones. The United Nations Convention against Corruption, dated 2003, is an instrument that addresses corruption across the world. Within the G20, an anti-corruption working group, dating from 2010, is one of the bodies the booklet lists. The Financial Action Task Force, which acts as a global watchdog on money laundering and terrorist financing, is a body whose membership includes 38 countries and two organisations, among them the Gulf Cooperation Council and the European Union. The task force maintains lists of countries whose cooperation with it is considered weak, and these include a grey list with 21 countries and a second list with a different label. The Sustainable Development Goals also include a goal titled Peace, Justice and Strong Institutions. The booklet presents these bodies together, covering an international convention, a working group, a financial watchdog and a development framework, as part of the

wider effort against corruption. Each entry in the booklet's summary gives a short description of the body or instrument concerned.

Q1.

In which year did India ratify the UN Convention against Corruption? (year)

Answer: _____

Q2.

In which year was the Financial Action Task Force established? (year)

Answer: _____

Q3.

Which group established the Financial Action Task Force? (name of the group)

Answer: _____

Q4.

Which SDG number is the goal titled Peace, Justice and Strong Institutions? (number)

Answer: _____

Q5.

Which country ratified the UN Convention against Corruption in 2011? (country)

Answer: _____

Q6.

Which country was officially made a full member of the FATF? (country)

Answer: _____

Q7.

What is the name of the FATF list that labels countries as Non-Cooperative Countries or Territories? (two words)

Answer: _____

PVTGs and PM-JANMAN: Short Answer

Particularly Vulnerable Tribal Groups, known as PVTGs, are communities considered more vulnerable than other tribal groups in India. A national scheme aims at their overall development and at improving their socio-economic conditions. The scheme's support is meant for PVTG families, who face challenging living conditions. The Shompen are one such group, and they live on Great Nicobar Island, the southernmost island of India. The island is largely covered by tropical rainforest, and its coastal areas include Galathea Bay and Campbell Bay. The Nicobarese, the Andamanese and the Onge also live on the island. The Great Nicobar Mega Infrastructure Project has raised concerns about the Shompen and the Nicobarese. These concerns include loss of habitat, cultural disruption and the impact on livelihoods. The island also lies in the highest seismic risk zone, so it is vulnerable to earthquakes and tsunamis. The island is home to the Great Nicobar Biosphere Reserve, and Indira Point marks the southernmost point of India. The project includes an international container transshipment terminal, a gas and solar based power plant, a dual-use civil-military airport and an integrated township. The project is being implemented by the Andaman and Nicobar Islands Integrated Development Corporation, and the National Green Tribunal has upheld its environmental clearance, citing compliance with coastal regulation norms.

Q1.

In which year did the Dhebar Commission set up the PTG category? (give the year)

Answer: _____

Q2.

A PVTG is a sub-classification of which larger category? (name it in two words)

Answer: _____

Q3.

Which national scheme for PVTGs has an outlay of Rs. 24,000 crore? (give the acronym)

Answer: _____

Q4.

One salient feature of PVTGs is population growth that is stagnant or _____. Which word fills the blank? (one word)

Answer: _____

Q5.

The PM-JANMAN scheme covers road and _____ connectivity. Which word fills the blank? (one word)

Answer: _____

Q6.

Which ministry has identified the PVTGs? (name the ministry)

Answer: _____

Q7.

The scheme's aim is the _____ development of PVTGs. Which word fills the blank? (one word)

Answer: _____

World Wetlands Day 2026: TITA

World Wetlands Day draws attention to wetlands, which are places where land is covered by water. The day commemorates the Convention on Wetlands of International Importance, widely known as the Ramsar Convention, which was signed in 1971. The Convention has member states from across the world, and India is one of its signatories. India's wetlands are part of a group known as the Ramsar Network, and this network has been in the news. The Ramsar Network refers to India's wetlands that are recognised under the Convention. The day therefore connects a global treaty with sites inside India. Another pair of wetlands is also in the news. The Patna Bird Sanctuary is located in Uttar Pradesh and is a bird sanctuary of that state. The Chhari-Dhand Wetland Reserve is located in Gujarat and is known for a mysterious local phenomenon. Together, these two places show that wetlands in India range from bird habitats to reserves. Both sites are wetlands that have drawn attention for distinct reasons. The observance therefore gives attention to wetlands in general, as well as to specific sites that are being highlighted this year. The topic thus has three parts: the day itself, the Convention, and the sites in the news. The booklet presents this news in its Why in News section, which is the opening part of the topic.

Q1.

On which day of February is World Wetlands Day observed? (give the number)

Answer: _____

Q2.

In which district of Uttar Pradesh is the Patna Bird Sanctuary located?

Answer: _____

Q3.

In which year did the Ramsar Convention come into force?

Answer: _____

Q4.

In which year did India become a signatory to the Ramsar Convention?

Answer: _____

Q5.

In which country is the city of Ramsar, where the Convention was signed, located?

Answer: _____

Q6.

Chir Batti night lights are seen across which grassland? (one word)

Answer: _____

India-France Partnership: typed answers

India and France have upgraded their ties to a special global strategic partnership during a visit by the French President. Cooperation between the two countries now spans defence manufacturing, technology, critical minerals, nuclear energy and trade. The economic side includes cooperation on the India-Middle East-Europe Economic Corridor, and the partnership also includes joint military exercises by the army, navy and air force. A final assembly line for a light utility helicopter has been inaugurated in India as part of a private aviation facility. A joint venture with a French firm will also produce a missile in India. Earth observation is another area of joint work, and the two countries have agreed to amend their double tax avoidance agreement. A large nuclear project is being built in India with a French utility. The roadmap sets the course for the bilateral relationship in all areas. France has been the Chief Guest at India's Republic Day celebrations more than once. Namaste France 2028 is planned as a celebration of the partnership, marking a milestone in its long history. The two sides have also agreed on a joint declaration about critical minerals. Each of these areas is covered in the joint outcomes announced during the visit.

Q1.

Which helicopter model's final assembly line was inaugurated at Vemagal, Karnataka?

Answer: _____

Q2.

In which year is the India-France Year of Innovation?

Answer: _____

Q3.

Which institution hosts the Indo-French Centre for AI in Health?

Answer: _____

Q4.

The Jaitapur nuclear park is in which Indian state?

Answer: _____

Q5.

Which French company is the partner in the Bharat Electronics joint venture that produces the HAMMER missile?

Answer: _____

Q6.

How many years of Strategic Partnership will Namaste France 2028 celebrate?

Answer: _____

Q7.

The H125 final assembly line in India is a joint project of TATA and which European aerospace company?

Answer: _____

Chabahar Port and Arab League: typed answers

Chabahar Port is located on the Makran Coast of Iran, close to the Gulf of Oman and the Strait of Hormuz. It is the Iranian port closest to India, and it offers a direct route to Afghanistan and Central Asia that avoids Pakistan. India has been involved with the port for a long time, and the port has been developed through agreements between the two countries. The Chabahar-Zahedan railway is planned to connect the port to Afghanistan's highway network. The Arab League is a regional organisation of Arab countries that coordinates policies on political, security, economic and legal issues. Its region is the Middle East and parts of Africa. The organisation stresses respect for the sovereignty and territorial integrity of all states and calls for cooperation against terrorism. The Arab League has also supported reforms of the United Nations Security Council to reflect contemporary global realities. India and the Arab League have adopted a joint declaration on peace, security and global governance. The Arab States supply a large share of India's crude oil imports, and many Indians live and work in Arab League countries. Stability in the region is considered vital for India's energy security and supply chains. Chabahar also offers India a counterbalance in the Arabian Sea.

Q1.

How many nautical miles is Chabahar Port from Gujarat's Kandla Port (approximately)?

Answer: _____

Q2.

Chabahar is an integral part of which transport corridor (give the acronym)?

Answer: _____

Q3.

For how many years does the 2024 contract give India Ports Global the right to operate the Shahid Beheshti and Shahid Kalantari terminals?

Answer: _____

Q4.

In which city is the headquarters of the Arab League?

Answer: _____

Q5.

In which year was the Arab League established?

Answer: _____

Q6.

Which Iranian president's visit saw the 2003 New Delhi Declaration signed?

Answer: _____

Q7.

What is the acronym for the Suez Canal-Red Sea Economic and Maritime Development Initiative highlighted by the Arab League?

Answer: _____

Malaysia and Seychelles Visits: typed answers

India's Prime Minister made an official visit to Malaysia, and the two countries issued a joint statement covering strategic, defence, digital and trade cooperation. The defence part of the

statement focuses on maintenance, technical expertise and supply chain resilience. Both sides emphasised balanced and diversified bilateral trade, with priority given to semiconductors, the digital economy and advanced manufacturing. Malaysia has also reiterated its commitment to the UN Convention on the Law of the Sea and to freedom of navigation and overflight. Malaysia is an important partner for India within the ASEAN grouping, and the two countries are to co-chair an expert working group of ASEAN defence ministers for 2024 to 2027. Malaysia has reiterated its role as a reliable supplier of palm oil to India. Malaysia and India also hold joint military exercises involving the army, navy and air force. Separately, the President of Seychelles visited India and announced a package of assistance. The focus areas of this support are development projects, capacity building and maritime security cooperation. Both the Malaysia and Seychelles visits stress disaster-resilient infrastructure, and the Seychelles visit also stresses maritime security.

Q1.

Who is the President of Seychelles who visited India?

Answer: _____

Q2.

What is the capital of Seychelles?

Answer: _____

Q3.

What is the capital of Malaysia?

Answer: _____

Q4.

What is the currency of Malaysia?

Answer: _____

Q5.

What is the name of the joint vision that India and Seychelles announced to mark 50 years of diplomatic relations?

Answer: _____

Q6.

Which regional security grouping will Seychelles become a full member of?

Answer: _____

Q7.

Which Indian agency signed an anti-corruption MoU with Malaysia's Anti-Corruption Commission (give the acronym)?

Answer: _____

Kavach and Tunnel Figures

Transport and connectivity is covered in the February 2026 current affairs section of the booklet, which places it among the topics for the month. The section begins with Kavach, described as India's Indigenous Automated Train Protection System. The booklet presents Kavach as a rail safety system and gives its deployment in India in route kilometres. The section then covers a major tunnel project. The Cabinet Committee on Economic Affairs approved an underwater twin tube road-cum-rail tunnel, with the stated purpose of boosting connectivity in the North-East. The tunnel is described as a road-cum-rail link that passes under a river in Assam. It is linked to two national highways at its two ends, which the booklet names by their numbers. The booklet gives figures for the whole project and for the underwater part of the tunnel, and it names the organisation that developed Kavach. Each entry is short and lists its key features in a few lines. Both items appear on the same page, with the Kavach entry first and the tunnel entry next. Kavach

is listed first in the section, and the booklet gives its objectives in a short list.

Q1.

Kavach has been deployed across how many route kilometres in India? (number only)

Answer: _____

Q2.

What is the total length of the tunnel project, in km? (number only)

Answer: _____

Q3.

What is the length, in km, of the underwater twin tube tunnel? (number only)

Answer: _____

Q4.

Numaligarh is on which national highway? (number only)

Answer: _____

Q5.

Under which river does the underwater tunnel pass? (one word)

Answer: _____

Q6.

Gohpur is on which national highway? (number only)

Answer: _____

Mercury Facts and Cyber Bodies

Space and cyber security is the other broad area covered in the February 2026 section of the booklet. The space entry is about Mercury. The booklet describes the planet as the closest to the Sun and the smallest in the Solar System, and it says it is the fastest orbiting planet around the Sun. Data from a NASA spacecraft is reported to have revealed numerous bright streaks across the planet's surface. The booklet also lists key discoveries, which include the presence of water ice in certain shaded areas and a large core. The space entry comes first, and the cyber entries follow it in the same section of the booklet. The Global CyberPeace Summit 2026 is described as an event that concluded, and it was organised by CyberPeace. Another entry describes a programme created to build global cyber and AI talent, which was launched in partnership with another body. A further entry describes an alliance that aims to address future cyber risks, and a centre of excellence that focuses on securing vehicles of several kinds. The booklet keeps the space and cyber items in separate parts of the section, and each part has short entries that list their main facts. Mercury is shown as the first entry in the space part of the section.

Q1.

How many natural satellites (moons) does Mercury have? (number only)

Answer: _____

Q2.

The AI Scholarship Programme was launched in partnership with which body? (name only)

Answer: _____

Q3.

In which city was the Global CyberPeace Summit 2026 concluded? (city only)

Answer: _____

Q4.

Mercury's large core is described as what kind of rich? (one word)

Answer: _____

Q5.

The Global Quantum Threat Alliance addresses future cyber risks arising from which technology? (two words)

Answer: _____

Q6.

Water ice on Mercury was confirmed in permanently shadowed craters near which part of the planet? (one word)

Answer: _____

Q7.

Mercury is the densest planet after which planet? (one word)

Answer: _____

Institutions and the Rafah Crossing

The February 2026 booklet includes an institutions section and a places section. The first body is the Indian Pharmacopoeia Commission, which the booklet says was established in 2005. The Pharmacopoeia is described as a legally binding compendium, and it defines standards for identity, purity, strength and quality of medicines. The Indian Pharmacopoeia is described as the official book of drug quality standards in India. The Commission prescribes quality standards for drugs manufactured, sold and consumed in India. Its key publications are the Indian Pharmacopoeia and the National Formulary of India. The second body is APEDA, which marked 40 years of promoting India's agricultural exports. APEDA promotes the export of agricultural and processed food products, and its inspection and quality control work covers meat products and processed foods. Its headquarters is in New Delhi, and its chairman is appointed by the Government of India. The Commission's publications are presented in the same entry as its functions. The places section covers the Rafah Crossing in Gaza, which was partially reopened after two years. The crossing allows limited movement and humanitarian access. The booklet lists the crossing among other border points in Gaza. Rafah is described in the booklet as a crossing, and the entry sits under the places heading. Each entry is short, and the entries are arranged under organisation and place headings.

Q1.

In which year was APEDA established? (year only)

Answer: _____

Q2.

How many MoUs did the Indian Pharmacopoeia Commission sign? (number only)

Answer: _____

Q3.

In which city is the Indian Pharmacopoeia Commission headquartered? (city only)

Answer: _____

Q4.

APEDA acts as the secretariat of which board for certification of export-related bodies? (full name)

Answer: _____

Q5.

APEDA is a statutory body under which Act? (year of the Act only)

Answer: _____

Q6.

Under which Union ministry does the Indian Pharmacopoeia Commission function? (ministry name without the words Ministry of)

Answer: _____

Q7.

The Rafah Crossing is often referred to as Gaza's what? (one word)

Answer: _____
